Quite a Melon  
95 Brains and Labor  
Warning Coolidge  
They Hunt Heads. We Also

By ARTHUR BRISBANE

THE Delaware, Lackawanna & Western Railroad will present to its stockholders a handsome "melon"—a good cash. It is a good melon, a good cash.

Most farmers wish somebody would come and take such a melon to them. President Coolidge will think it something almost as good between the ears and fall. He certainly would like it.

There is much prosperity in this country and, fortunately for us, it is based on "natural resources"—oil, coal, forests, good soil, etc. It comes from inside the ground. Prosperity is in many ways a good thing, but it is not a good thing if it is based on natural resources alone. The world's most prosperous countries are Liberia and Iceland.

Our automobiles, typewriters, elevators, radio instruments and other things in which we lead are 95 per cent American and mechanical skill. Se Ernest says "Britain should include into this country a small percentage of American mentality and mix it with all the charm of the English way of view." Not a bad idea, but it is a small percentage. Help.

Another good Britisher, Sir George Lush, "economist and politician," calls on President Coolidge to tell him that he really must, and so must Uncle Sam, do something about chasing our tariff. In fact he "warns" Coolidge that Europe faces a serious situation because European countries are not made in this country as freely as they would like to.

That is too bad and it will interfere with the president. Also it will make him glad that the United States has a tariff. He likes Europe and would make reasonable suggestions, but he would like some others he hasn't forgotten that he is hired and paid by the United States, not by Europe.

A STRANGE hitherto unknown tribe is found in Borneo, having for its life and principal sport "head hunting," which means collecting heads of other savages. The old gentleman in his declining years, sitting under his tree in the sunshine, with his large collection of heads piled one on another, is much interested. You say, "That is horrible." It is. But it is a sport to some extent among ourselves.

Four high-spirited Norwicks, leaning back in his study blowing smoke rings on the air, is proud to show his collection of heads, lions, rhinoceroses, moose, tigers. There isn't so much difference. It is the desire to kill and to be able to prove that you have killed that part of the "survival of the fittest," which means the "fighting-est."

LENINGRAD, great city of Russia, is the greatest communist country, is to hold the world's record for murders, suicides and drunkenness. This would convince you offhand that communism is a very bad thing. Suddenly you remember that this greatest of capitalist countries is certainly a good second, if not first in suicides, murders and boozing drunkenness. And then you wonder.

AN Egyptian tomb near the Giza pyramids opened by Vienna scientists, contains the record of a very rich dead buried in an impoverished prince, thousands of years ago.

OUR rich princesses marry mental dwarfs, rich in titles. That's the difference, and that Egyptian princess is the better of it. She got something in exchange for her hand with the "dwarfs" of the future.

REV. CLARENCE TRUE WILSON, of Washington, who leads the "dwarfs" of the future, says this country will never drop the eighteenth amendment and that is true, barring prohibition, which won't come. You couldn't get 36 states to vote against prohibition.

REVEREND MR. WILSON also announces an end of liquor drinking in America. That may come, but he will not live to see it, nor will he be 94 years hence see it.

You can't change in 500 years the habit of 100,000 years. Some even say absolute teetotalism might not be a good thing when they see in 1928 300,000,000 total abstainers from the thumb of the small liquor bottle.

## FREMONT MAN AND GIRL DEAD AFTER QUARREL

Another Step-Daughter's Condition Serious While Mother Is Clubbed Over Head

FATHER GOES ON RAMPAGE

Objects to Girls Remaining "Out Late" and Their Dance Companions

Fremont, April 8.—Charles Brandell, 38, and his step-daughter, Audrey, 19, are dead here today while Dorothy Smith, another step-daughter, and Brandell's wife, Emma, are in Memorial Hospital as a result of a family quarrel. Dorothy's condition is pronounced serious but Mrs. Brandell will recover.

Audrey was killed instantly last night by Brandell who shot the girl through the stomach with a shotgun, fired another charge at Dorothy, tearing off her right arm, beat his wife over the head with the butt end of the gun and then shot himself.

According to police Brandell became enraged during an argument which started when he disapproved of his step-daughters being out "so late" attending a dance, and also expressed his dislike for the two young men who accompanied the girls home.

Brandell obtained a shotgun and going to the girls' bedroom, fired twice. The first shot struck Audrey, killing her instantly. The second charge shattered Dorothy's right arm, tearing it from her body. Mrs. Brandell, upon hearing the shots, rushed upstairs and was clubbed over the head with the butt end of the empty shotgun. She was rendered unconscious.

Descending the stairs, Brandell reloaded the gun and shot himself. He died at 7:20 o'clock this morning.

ROGERS HORNSBY ISSUE SUBJECT OF CONFERENCE

President Heydler, National League, Predicts Immediate Amicable Settlement

Pittsburgh, April 8.—Amicable settlement before midnight, was the promise of President John A. Heydler as the National League went into executive session at 11:30 o'clock this morning to decide a plan whereby Rogers Hornsby, stockholder in the St. Louis Cardinals, will be permitted to start the 1927 season on Tuesday as second baseman and captain of the New York Giants.

Hornsby, asking \$105 a share for his 1,167 shares of stock in the Cardinals, has been summoned here to confer with the various league officials, one of whom is Sam Brandon, of St. Louis, who is expected to return to New York only a few months after his player-manager had won the pennant and a world's championship for the Cardinals.

Brandon's best offer to date for Hornsby's holdings has been \$80 a share and, in the face of the resulting impasse, Heydler has decreed that Hornsby cannot play for the Giants until his St. Louis stock is sold. Hornsby's reply was a threat to take the matter into court if his livelihood is thus cut off and he has been supported in this ultimatum by John McGraw, manager of the Giants.

Hornsby, who was to be represented by his attorney, William Fahy, was asked to leave the pre-liminary to an arbitration committee, whose members will be mutually acceptable to Brandon and himself.

Among the threats and counter threats aired is one by Hornsby that he will report for all games played by the Giants and another by Heydler that, in such a case, he will instruct his umpires to order Hornsby off the field, a third of which McGraw is the author, calls for the obtaining of an injunction, restraining the National League from interfering with Hornsby's means of livelihood.

ON TO SAN DIEGO

De Pinedo Flying in Navy Ship; Will Await Orders There

Phoenix, Ariz., April 8.—Although his sturdy monoplane, the Santa Maria, was a mass of twisted debris at the bottom of Roosevelt Lake, Commander Francesco De Pinedo, the distinguished Italian aviator, will fly to San Diego today. De Pinedo will make the hop today. De Pinedo will make the hop today. De Pinedo will make the hop today.

SMITH FINISHES REPLY TO NOTE ON RELIGION

New York, April 8.—Gov. Alfred L. Smith, potential Democratic presidential candidate, today completed his reply to the open letter published in the "Atlantic Monthly" by Charles C. Marshall, asking the governor whether his allegiance to the Roman Catholic Church conflicted with his duty toward the state.

The governor's reply, amounting to about 2,000 words, is expected to reach the office of the "Atlantic Monthly" this time tomorrow, it was said at the Smith residence in the Marlborough Hotel, where he is staying.

## Burlesque Against Hill Bill Jars Senate

THE state senate at Columbus was almost rent asunder by factional strife yesterday afternoon when a huge petition asking for the adoption of the Hill anti-Sunday dance bill was presented in burlesque fashion by a group of senators opposed to the measure.

The mock ceremony, which the senators afterward declared was intended as a bit of harmless fun, was interpreted by many of their colleagues as a scolding and an "insult to thousands of well-meaning people in Ohio."

Although the turmoil which followed presentation of the petition subsided later in the session and peace was seemingly restored, there remains a possibility that its effects have not been entirely eliminated.

There are predictions, in fact, that it may have given new life to the Hill bill, which up until yesterday was regarded as being doomed to certain death.

Plays Funeral March

Entering the senate chamber garbed in the white splashes of choristers, and headed by a five-piece band playing Chopin's Funeral March, the petition bearers marched slowly with mock solemnity to the clerk's desk and formally filed the document.

As the petition, 700 feet in length and bearing 11,000 signatures, was unfolded and handed over the desk, the band changed its tune from the funeral strain to a jazzier and livelier air and retired from the chamber.

Senators who staged the burlesque presentation were J. Eugene Roberts, of Mahoning County, who led the group with a long chorist projecting from his mouth, L. L. Marshall of Cleveland, who was puffing profoundly on a pipe, George H. Rinder, L. C. Collier and Joseph N. Ackerman, also of Cleveland.

Whatever the purpose of the committee may have been in planning this unusual demonstration, said to be without precedent in senate history, it almost proved to be a boomerang in favor of the Hill bill.

When senators in their seats and spectators in the galleries recovered from first effects of the spectacle, a wave of resentment which for a time threatened to develop into an insurrection swept through the chamber.

Mutterings of disapproval which came as the first expression of resentment increased in volume until finally the protests came in loud and emphatic roars of condemnation.

Senators G. M. Kauder, Preble County and Miles S. Kuhns, Montgomery County, opened the attack and were followed almost immediately by Senator Davis Johnson of Fulton County, who was white-lipped and trembling with wrath.

According to press reports of the proceedings, Johnson was so thoroughly enraged that his remarks at times were incoherent. When finally able to express his feelings adequately he proclaimed that he was "Tired To Piece 14."

## Peking Now Faces Capture by Cantonese

Sweeping on from their base at Hankow, Nanking and Shanghai, the victorious Cantonese or Southern troops have moved north to battle Chang Tso-Lin, Manchurian war lord, for possession of China's ancient capital, Peking. To the left is the Chien Men Gate, the chief entrance to Peking, through a wall 50 feet high and 40 feet thick—a wall that was three-quarters of a century old when Columbus discovered America. Inset is a map showing the sweep of the Cantonese drive.

## First Slabs of Marble for Base of Harding Memorial Are Placed by Engineers

Work on \$800,000 Structure Expected To Be Going Full Blast Blast by Monday; Landscaping Operations Progressing Favorably, Report

The first slabs of marble for the base of the \$800,000 Harding Memorial were placed this morning. Work was begun on the marble for the lower and outer rim of the concrete foundation.

By Monday the work on the base will be going full blast. W. W. Miller, of the Georgia Marble Co., said today. Machinery is being moved into the memorial grounds rapidly, and will be in place by Monday. This will speed up the handling of the marble slabs, four car loads of which are now here, with three more on the way. Twenty carloads will be required for the base alone, Miller stated.

The machinery comprising three carloads, which is being unloaded and hauled to the memorial grounds, now all comes from Porto Rico, where the Georgia Marble Co. recently completed the capitol, a \$1,000,000 structure, for that country.

Work on the landscaping of the grounds is also going ahead under U. E. Weatherwax, of the A. D. Taylor organization, landscape architects of Cleveland. The 26 elm trees, planted in four rows leading from the northwest corner of the memorial grounds up to the memorial, are now in the ground, and the grading and seeding of the section of the lawn around the trees will be started soon.

There will be a meeting of the executive committee of the Harding Memorial Association at 11 o'clock Saturday morning at the Marion Club, Hotel Donnellan said today. Henry Hornsby, the architect, and representatives of the Georgia Marble Co. and Elford Construction Co. will meet with the executive committee to go over plans and talk about the work to be done.

The loans needed the Idaho growers to organize, and Saprio became general counsel for the association while Weyl and Zuckerman became the selling agency.

Senator James A. Reed, chief of Ford's counsel, charged the contract given Weyl and Zuckerman exploited the Idaho farmers. It was for a commission of \$37.50 a carload, said Reed, when other contracts were being made elsewhere at from \$10 to \$12 a carload lower. Saprio did not deny this.

Frequent clashes between Reed and Saprio marked the cross-examination of Saprio, who spent his ninth day on the stand.

TRAINMEN KILLED

Engineer and Fireman Lose Lives When Flyer Jumps Track

Tarleton, Kan., April 8.—The engineer and fireman of the Sooner, a Missouri, Kansas & Texas Railway train, were killed today when the train jumped the track near St. Paul, Kan., while making a detour for another wreck. Several others were injured.

The other wreck occurred when another M. K. T. train, the south-bound Texas Flyer, struck a low place where a culvert had been washed out two miles south of Erie, Kan. Twenty persons were hurt, some possibly dangerously.

The locomotive and two coaches of the Texas Flyer passed the culvert safely, but six other coaches went into a ditch.

## POLLAK STEEL IS OPERATING DAY AND NIGHT

Current Production Equal To Highest Point in History of Local Plant

300 MEN ON PAYROLL

Officials Optimistic That Record Business Will Continue Balance of Year

Production that Marion industrial concerns would be in thriving condition this year are being fulfilled in every respect at the local plant of the Pollak Steel Co., which is operating at peak capacity day and night with 300 men on the payroll.

Production is now equal to the highest point in the history of the Marion plant, according to information obtained at the company's office today, and there are indications that the same situation will continue throughout the year.

Although this season of the year is ordinarily a slack period for the steel industry, plants throughout the country are generally busy. R. H. Knecht, local manager of the Pollak Co., states. This is due largely to an exceptionally large demand for steel used in building construction work, indicating that 1927 is to be a year of extensive building operations.

Officials Optimistic

Most of the orders now keeping the Marion plant operating at its peak capacity are for reinforcement bars used in concrete construction. The bulk of orders is continuing unabated, providing every reason for the prediction that the plant will continue its present schedule of production throughout 1927.

The force of 300 men is divided into two 10-hour shifts, one working days and the other nights. This plan was placed in effect several months ago when business began to register a marked increase with every indication of continuing on that scale indefinitely.

The plant is now up to its utmost production capacity and it is indicated that should business continue to expand, construction of an addition may be decided upon.

The Pollak Steel Co. has its main office in Cincinnati and also operates another plant there.

## FLOWERS AT DRUGGIES RITES ARE ELABORATE

Followers of Chicago Gunman at Costly Casket as Services Are Held

Chicago, April 8.—Amid heaps of elaborate floral offerings, relatives and followers of Vincent Druggie gathered beside his costly aluminum and silver casket today to pay final honors to another Chicago gangster who lived and died by the gun.

Druggie, who succeeded Dean O'Bannon and Earl Wiles as leader of a powerful gang when gangland guns had bumped them off, was shot and killed by Policeman Dan F. Healy, a pug-nacious "kid" member of the force.

Druggie's comely blonde widow, in tears today, the shooting was the murder of a defenseless, unarmed man.

"I don't care if every policeman in Chicago tries to save him," she said to Healy. "He killed my husband in cold blood and should pay the penalty for murder."

Druggie was killed by Healy after an argument in the police automobile which was carrying Druggie and two of his friends to the station for questioning, after a reported roundup of underworld associates.

## Radio Movies Are Coming, Is Declaration of Chief

Washington, April 8.—Radio moving picture producers will be just as common in the American of the future as the motion picture of the present, according to the chief of the radio industry, declared today.

"Following the considerable demonstration by the American Telephone & Telegraph Co. between New York and Los Angeles, it is only a matter of time before the radio picture will be a fact," he declared.

He said that the radio picture is a natural development of the radio and the motion picture, and that it will be a fact in the near future.

## JAPS LAND 800 MORE SAILORS AFTER ATTACK

Guards in Northern Area Shanghai Fired on by Chinese Gunmen

WILLIAMS MAKES REPORT

Soviet Consulate Watched and All Visitors Searched; Americans Leaving Peking

Washington, April 8.—The Japanese have landed 800 additional sailors in Shanghai as a result of an attack last night upon Japanese guards in the north Szechwan-rd. Rear Admiral C. S. Williams, commander of the Asiatic Fleet, advised the navy department today.

"A cordon of police and Shanghai volunteer corpsmen were thrown around the Soviet consulate at Shanghai at 8 p. m. yesterday, and all persons entering or leaving are being searched," Williams said.

Chinese Nationalist plans for an advance towards Peking have received a setback. Shantung troops are reported to have forced the Nationalists to retreat after several engagements. Nationalist troops are being moved to Peking to reinforce the line there.

Marshall has expected to have been declared in Wuhan, a fact of the Nationalist army threaten disaster.

The Northern government continues its raids against alleged centers of Nationalist sympathy, and an American missionary institution at Yenching is understood to have been warned of a possible raid on grounds that it is sheltering radical students.

Japs in Shanghai

Japanese marines, reinforced by British troops, have engaged in a lively skirmish with Chinese gunmen in the northern area of Shanghai with two gunmen dead and one Japanese wounded.

American women and children are leaving Peking, and Mrs. John W. A. MacMurray and her children, the family of the American publisher, have announced their forthcoming departure. American officials declare there is no panic exodus from Peking but international are criticizing the Americans for leaving.

The Soviet government is delaying action on the raising of its Peking legation, but the Soviet press charges that the delay was instigated by the British to open the way for intervention of the powers.

CHANG TO CONTINUE RAIDS, HE ASSERTS

Peking, April 8.—Fully convinced that there is a widespread Nationalist plan for a coup d'etat in northern China, Chang Tso-Lin intends to continue his raids against suspected Nationalist centers, it was learned today, following raids in Tsin Tsin.

The American Missionary Institution, Yenching University, may be subjected to raid, according to warning given the officials of that institution. It is understood the northern government believes radical students are taking refuge in the university.

Mrs. John W. A. MacMurray, wife of the United States minister to China and her three children, will join the exodus from Peking next week, sailing for the United States. It was learned today. Mrs. MacMurray will be accompanied by the wife of the legation counselor and the third secretary. Under present plans the wives and children of the entire American legation staff will leave within the next month although their departure may be hastened if anti-foreign outbreaks take place.

Many Are Leaving

Great numbers of passport are being issued daily by the American legation, chiefly for women and children who are being sent out of the country. Legation officials pointed out that the departures are not the result of panic, but are dictated by a policy of caution.

Residents of other nationalities are also leaving Peking in great numbers, and the American legation is being crowded with refugees. The Chinese authorities promise to make a detailed report to the diplomatic body after they have obtained all the information possible from the prisoners.

Chinese Are Protected

It was learned from what is believed to be a reliable source that the Japanese are not permitted to land outside the legation compound in the northern area.

The Chinese authorities have ordered the removal of all foreign troops from the northern area, and the American legation is being crowded with refugees.

START GRABING MOVIE

London, April 8.—A movie movement has broken out in London, according to the police, who are reported to have arrested several persons in connection with the movement.

## PROFESSOR OF ZOOLOGY ADDRESSES KIWANIS

Dr. Edward L. Rice, Instructor  
at Ohio Wesleyan University,  
Luncheon Speaker

Conferring his talk to a discussion of the scientific facts upon which the theory of evolution is based, Dr. Edward L. Rice, professor of zoology at Ohio Wesleyan University, and well known authority on evolution, gave an illustrated lecture before the Marion Kiwanis Club Thursday noon at Hotel Harding.

Dr. Rice gave as his subject, "Why I Believe in Evolution." He discussed it with only a few references to the religious aspect of the question, basing his points on a few scientific facts, which to scientists form the basis of the evolution theory.

There are in the human body, Dr. Rice said, 180 separate organs which do not function in any useful way. Probably the best known of these useless organs is the appendix, which he said had been found, so far, to be useful only to surgeons.

It is the presence of these useless organs in the human body and their exact duplicate as useful organs in lower forms of animal life that forms one of the strongest points in the chain of facts marshalled by the evolutionists. The slides which Dr. Rice showed to illustrate his talk showed many of these useless organs in the human body and their presence in lower types of animals.

Dr. Rice pointed out that every human being has a set of muscles attached to each ear, but few human beings can move their ears. "The same set of muscles is found in horses and other animals, and in them the muscles function, while in the human body they are useless."

Owing to the short time allowed him Dr. Rice gave only a portion of his address on evolution and only part of

## Heads Commission

Henry Morris Robinson, Pasadena, Calif., lawyer, will head the American Economic Commission which is to attend the Economic Conference at Geneva in June. He has held appointments to the Council of National Defense, Supreme Economic Council and the Peace Conference in 1919.

The reasons why he believes in evolution. His address generally runs about three hours, he said, which he had to compress into slightly more than half an hour here.

Dr. Rice was scheduled to be called as one of the defense witnesses in the famous Scopes trial in Tennessee, but was unable to attend. His father, Dr. William North Rice, is also famed as a teacher of evolution and is professor emeritus at Wesleyan University at Middletown, Conn.

It was announced by President F. A.

Stengel that the board of directors of the club has made selections for the year office recently made vacant by the resignation of John J. Hane as treasurer and John Conner as secretary. F. H. Coxan has been chosen as treasurer and W. E. Orent as secretary of the club.

**WILLIS RUSHES TO SUPPORT OF UNITED STATES**

Nation Cannot Always Be Wrong, He Says, Hitting Radicals and Pacifists

Columbus, April 8 — "Our government is ready to abolish Chinese tariff stipulations and the capitulations providing extraterritoriality as soon as a responsible government, able to preserve order and protect life can be found in China," declared U. S. Senator Frank B. Willis here yesterday afternoon.

"Pacifists that were crying out to have our little army disbanded and our ships sunk are now glad we have the means to protect our missionaries and other citizens in China," continued Senator Willis, addressing a joint session of the Ohio Senate and House of Representatives, in the house chamber.

"The foreign debt question is settled and will not be reopened at the demand of those Columbia and Princeton professors who ape the manners and borrow their thinking from Europe," Willis asserted.

"It is fortunate for the country and the world that the radicals, who get their viewpoint from Moscow and their inspiration from Moscow and the Third Internationale, are in a hopeless minority under the American flag."

"In its dealings with foreign nations and peoples, our country is, and must ever be, just to our own people, generous to those less fortunate and determined without exception, forever to be sovereign and independent," said Willis.

"It will not leave to any authority outside our own country, by whatever name it may go, the right to determine America's future. America is willing to be helpful, but it must always be free. The Mexican difficulty is practically settled now. It would have been fully settled, but for the meddling some monopoly of self-appointed negotiators with little information and no authority," declared Willis.

**Coolidge is speaker**  
"The president speaks the voice of the nation in dealing with foreign powers," continued Senator Willis, "and no other official or individual, has the right so to speak, yet, notwithstanding the unimpeachable provisions of the Constitution of the United States in this regard, recently a non-descript association of self-selected individuals, known by the meaningless but misleading, pacifist, went to Mexico to confer with the authorities of that country, and, if possible, to leave there the impression that some organization other than the president was speaking for the United States."

"Subsequently, a member of the U. S. Senate was found to be in direct telegraphic communication with Mexican officials, preferring to believe them rather than to believe American soldiers and sailors and American officials."

"Such conduct is ill-advised, unwelcome and borders on the unpatriotic. It is even debatable whether it is not a criminal offense punishable under federal criminal statutes embodied in the Logan act," declared Willis.

"Some people deem it an evidence of profound thought and high sense of justice to assume that our country is always wrong; that its policies are unworkable, and that its own citizens and officials are liars and crooks."

"By these intelligent, my well story told by a revolutionary half-breed, or an excited Chinaman is regarded as conclusive proof, while the careful investigations and detailed sworn reports of our own citizens and officials are discarded as utterly unworthy of belief. Why assume that our country is always wrong? Willis asked, "Why always be against the United States and strive to give aid and comfort to the other side?"

Daily Proverb—"No man knows till he has tasted both fortunes."

As to get it, the cause of the separation of State Chairman Ives and Governor Denehy was incompatibility of temper.

The Youngstown Vindicator says: "The old days were best. Guests left at midnight even if the refreshments weren't exhausted." But those were the old nights!

While it is amazing that Chicago pulled off an election without an attendant murder, it is simply astounding that, thus far, there haven't been any charges of ballot-box frauds.

If Mr. Coolidge is thinking of making a western trip, it may interest him to know that there is a belt hole around Chicago.

Unless it develops that there was material exaggeration in the report of the damage done to Mr. Ford's car, we're going to refuse to believe that it was a flivver.

The explanation may be that the gunmen and bootleggers were so busily engaged in voting for their favorite in that Chicago mayoralty election that they hadn't time to kill anybody.

We guess the fellow who got off that one to the effect that words once spoken can never be recalled never listened in much on the jokes gotten off over the radio.

Senator Glass having assured us that Governor Smith can be elected president and Senator Fess having told us that Mr. Coolidge will be, we are just about compelled to assume that Al is going to be generous and refuse to run.

A San Francisco woman, upon the complaint of her husband, has been fined \$50 a blow for each of the nine times she struck her husband recently. "The worm will turn."

"Sympathy is hereby extended to poor Jim Reed," says the Boston Herald, "who will now have to go home and bite himself." We get the idea, of course, but the fact is that James seems to be having the time of his life biting Mr. Saprio.

Heavy artillery was loaded aboard the transport, Henderson, for use in protecting American lives in China. It looks as though it might possibly be used to maul the landscape up a bit.

We're beginning to fear that, if Will Rogers continues much longer in his self-assumed role of adviser to the country as a whole, there may be danger of him taking himself seriously one of these days.

A member of the United States engineers' corps says it will literally take billions to build a canal across Nicaragua. What's he trying to do, discourage the residence of our marines down there?

The Ohio workmen's compensation fund is said to amount now to \$50,000,000. That represents about nine dollars to each individual in the state at the time of the last decennial census or one-fourth of the per capita circulation. What's the idea? Is the state trying to corner all our coin?

The Ford company's surplus is now \$697,637,785. We sincerely hope the Ford stockholders will emulate us spreaders of joy and sunshine in paragraphs and not let their wealth go to their heads.

Vice President Dawes brought back from his recent trip to Panama a huge head found in a Mayan ruin which he insists is that of an elephant. Scientists scoff at his claim, pointing out that it is nothing more than a stone representation of a tapir from the snout has been broken off, but Mr. Dawes, of course, is too good a Republican to admit anything like that.

## Pullman Car Debaters.

According to some Pullman car conversations, the nation is practically torn apart by vicious disagreement on the wet and dry question. There is no better place to hear exaggerated conversation than in the smoking compartment. It is an exaggeration to say that the wet and dry, or the enforcement, policies of the Coolidge administration are subject to doubt. Fortunately, we Americans are practically unanimous in favoring law enforcement on the ground of general decency.

So the Pullman car debaters may take the appointment of Roy Haynes by President Coolidge as an answer to all the exaggerated conjectures as to this and that angle of administration policy and settle down to a realization that Mr. Coolidge is attempting to secure the very best assistance in enforcing the prohibition law.

Roy Haynes may be kidded by the wet followers. He may be jibed by those who feel the Anti-Saloon league is a professional reformer. But the president knows him to be a sincere and consistent dry who believes in law enforcement. So do all good, substantial Americans whether they vote wet or dry. And therefore the appointment of Roy Haynes is decidedly a forward step in the national administration's prohibition policy.

## More Nuisance Taxes.

It is becoming more and more apparent that the members of the general assembly, as a secondary tax program, are placing dependence on five proposed measures to raise revenue in sufficient amount to run the state along lines the powers that be consider commensurate with the dignity and importance of the commonwealth for which they have been selected to legislate, and that, of the five proposed measures, chief reliance is placed by them in three.

The first of the three is the bill of the Logan county representative, Mr. Gordon, who opposed the direct levy and who has offered his bill for a tax on amusements. The Gordon bill provides for a five per cent tax on amusements, vaudeville, motion pictures, grand opera, concerts, circuses, minstrels, carnivals, street fairs, menageries, wax works, side shows, amusement parks, baseball, museums and "shows and exhibitions" are enumerated. Performances for churches and charity are exempted. In a word, the government having taken its nuisance tax off amusements up to and including fifty cents in price of admission, Mr. Gordon hopes to have the state slap it back on amusements at any price. The second of the three measures upon which chief reliance is placed is the bill of Mr. Forney, of Hancock county, providing for a tax on cigarettes. Considering the growth of cigarette sales, such a bill should be something of a revenue producer. The third proposed measure, which was reported out recently by the house taxation committee, provides for a recording tax on mortgages.

The other two of the five measures are the Aigler corporation franchise tax bill and the Kummer bill to increase the excise tax on most public utilities.

It's a bit distressing when the expenditures of a state are such that it is forced to resort to such measures as these for the raising of revenue. True there is a great deficit confronting the state at present, and it may be urged that extraordinary measures are necessary to meet an extraordinary situation. Well and good as an explanation, but our guess is that if the deficit did not exist there would still be a plan afoot to raise more revenue. Even with the deficit in being, it may be noted that proposals for expenditures in addition to those we already have to meet keep on. It was only a day or two ago that we called the attention of our readers to one of them—a proposal for the lighting of the main thoroughfares of the state, both state and county.

We offer this not because we are out of sympathy with any particular plan to meet the deficit in the state treasury, but rather to show the trend toward further expenditures even at a time when the state's finances are such that resort must be had to such methods to correct them.

It having been generally admitted that Mayor Dever, of Chicago, had actually tried to enforce the law, his defeat was inevitable. Law enforcement doesn't appeal to Chicago.

The Chicago Tribune says it "set a mark of mechanical and human efficiency unequalled in any newspaper office in the world" when it got out its fifty-page election returns edition of 921,530 copies. You have to hand it to the Tribune for its dependability. We have never known it to permit any fool spirit of false modesty to cause it even to attempt to hide its light under a bushel.

## Big Incomes Bear the Burden.

In one of his admirable feature offerings which we run on this page day after day, Grove Patterson, of the Toledo Blade, calls attention to the fact that eighty-two per cent of the people of the country do not pay federal income taxes and that less than one per cent of the income tax-payers of the country pay ninety-five per cent of the total income taxes received by the government.

Mr. Patterson's statistics are probably all right, but they may mislead, it is possible that they may cause some to take the view that the great bulk of the wealth of the country is held by less than one per cent of our people and that the ninety-five per cent plus are having a struggle for existence.

Such, of course, is not the case. The federal income tax originally was designed to cast the bulk of its burden upon those congresses assumed could best bear it. The person of modest income was given an exemption which took off a large part of the burden, and provision was made whereby there was an added exemption for each child under eighteen or other dependent within the meaning of the law. Since then those exemptions to people of small incomes have been further increased, the rates on small incomes have been reduced and other advantages have accrued to the person of small income with the result that the income tax they are asked to pay is now trifling. One may have an income, let us say, of \$5,000 and such are the deductions he is able to secure that his tax will not exceed three or four dollars. The great majority of the incomes probably average less than this amount, and this will explain why it is that the big incomes bear ninety-five per cent of the income tax burden.

## Vagrant Verse.

**WOOD SMOKE.**  
It was the thin blue column raised  
To meet the stars upon the trail  
Of pioneers, the lonesome gaze,  
From shores that yet were mysteries.  
On its soft wings when not a sail  
Had glimmered on the inland seas

It was the omen leading us  
To treasures hidden in unknown  
Majestic lands, and in the dawn  
It marked the outpost of our dreams.  
It waved like banners where were won  
The first wide fields by unnamed streams.

And high against the Northern lights,  
In airs where snapped the jaws of death,  
It lifted on the crystal night;  
And underneath the Southern Cross  
It drifted like a shibboleth  
By pearl lagoon and phantom moss.

It was the signal written high  
Across the vast, it was the praise  
From humbly altars near the sky  
Where now dominion came to pass  
From East to West men saw it trace  
In blue along the western seas.

## NEW PROSPECTOR TAKES THE TRAIL.

## Rickets Among Children.

BY ROYAL S. COPELAND, M. D.

Unless the infant is properly fed, unless the child is properly fed, unless the grown person is properly fed, there is sure to be such a disturbance in the nutrition of the body as to undermine the health and perhaps to shorten the life.

Doubts have occasion to deal with patients who are not properly nourished. There are certain diseases which we speak of as "diseases of nutrition."

During the war, in sections of Europe where rigid rationing was practiced, a great many adults suffered from a disease called "osteomalacia." This long name means softening of the bones, and of course is due to a lack of certain food elements.

Little children have a disease of nutrition a great deal more common, of course, than osteomalacia, the similar disease of adults. The disease to which I refer is called "rickets."

This condition is observed most commonly between the ages of six months and eighteen months. It is responsible for many of the deformities which we recognize in grown-up people.

It begins with certain symptoms, which indicate poor nutrition. The first of these is sweating of the head. Some babies perspire so about the head that the pillow is wet for several inches round about. While this symptom may not indicate rickets, it should make you suspicious of the possibility.

Rickety children are likely to be late in teething. The little teeth do not appear for weeks beyond the time when they should cut through the gums.

A child with rickets is likely to have a large head and a little body. The bones of the wrists and ankles are enlarged. The long bones lack strength and bow-leggedness may develop.

One reason why the legs bow is because of the weakness of the muscles. These elastic bands lack power and do not function as they should. The muscles are small and undeveloped. They are flabby and soft. On this account, the child with rickets can not sit erect or walk as early as he should.

"Pot-belly" is a prominent and early symptom of rickets. The muscles of the abdomen, like the other muscles, are soft and flabby. In consequence the walls of the abdomen give way and the prominence known as "pot-belly" is observed.

The muscles of the intestinal canal are lacking in vigor and normal function. On this account the bowel movements are delayed. Constipation is a common symptom.

The rickety child is likely to be fat, fair and flabby. There is a lack of normal blood supply. The youngster possesses bow resistance and is likely to pick up any one of the more ailments.

The rickety child is very likely to be a nervous child. Extreme restlessness, particularly at night, is a prominent symptom. Convulsions are not uncommon in such cases.

In the treatment of rickets first consideration must be given to the diet. I shall speak more in detail regarding this at another time. Cod liver oil and sunlight are the great remedies.

## Dinner Stories.

It was a keen, frosty morning, and the stout elderly gentleman on his way to catch the early train stepped on the slippery footpath on the street and immediately fell, and was propelled by his weight down the steep incline. A young lady who was coming out of her gate was overturned by the onrushing body, sat upon him, and was carried toward the foot of the hill. As they reached the railway station at the end of their rapid journey, the gentleman panted: "You get off, miss, I stop here."

Johnny had been the guest of honor the day before at a party to which his little cousin, Tommy, had not been invited. After hearing all about it, Tommy said to Johnny: "Have a good time, Johnny?"

"Did I?" answered Johnny. "Why, I'm not hungry yet!"

"Baby's getting on wonderfully—I'm sure she'll be able to walk soon."

"You think it's worth the trouble of teaching her—hardly anybody walks much nowadays."

Some Questions of Interest Asked and Answered.  
Q How many big African rivers flow into the Mediterranean? V. C.

A The Nile is the only great African river that flows into this sea. It drains an area of more than 1,000,000 square miles.

Q In referring to literature what expresses the opposite of realism? R. T.

A It depends upon the meaning to be expressed. Some terms expressing opposite ideas are idealism, romanticism, conventionalism, sentimentalism, and imaginative treatment.

Q How great was the damage by the Charleston earthquake? H. A. D.

A Seven-eighths of the houses were rendered unfit for habitation, many persons were killed, and property valued at over \$5,000,000 was destroyed. The damage, however, was quickly repaired.

Q How many new crops have been added to our list since colonial days? D. B.

A The department of agriculture has sent plant explorers to the ends of the earth, and many new species are being adapted to this country. Until it became active in the matter only two plants sorghum and alfalfa, had been added to the list since colonial days.

Q What is the Army Music school? J. H. G.

A The Army Music school is a separate branch of the United States army. It is located at the Washington barracks, Washington. A baritone's course extends from eight months to one year. This is a course for beginners.

## The Way of the World.

BY GROVE PATTERSON.

We are learning how to feed our rapidly growing population. We shall have to think up many new tricks as the years go on. In western Kansas they are talking about packing houses for rabbits. More than 19,000,000 rabbits are bred in the western section of Kansas every year.

Rabbits can be made to produce large commodities for produce for for felt hats; a case for "moccasins" taken from the fat, and rabbit rear which is as good for the human system as beef steak.

The radio will be used by a Chicago physician in the treatment of a child attacked with sleeping sickness. Science is feeling for great things these days. We are on the verge of amazing discoveries. This is a fascinating age. Who can say what is in store for tomorrow's generation?

Probably the reason so many people fail to achieve contentment and peace of mind in this world is that they try to get everything they want. There is a sort of delusion under which nearly all of us labor. It is the delusion that we will be happy if we can just get what we want. It is the delusion that we will be happy if we can just grasp the pleasures that our appetites call for. The fact is, contentment and peace of mind more often come to the soul as the result of denial, of sacrifice, of "doing without." Those who keep their wants at the minimum and live the simplest are the happiest. If you think indulgence brings peace of mind you are all wrong in your psychology.

Figures are surprising sometimes, aren't they? It is interesting to learn, for example, that eight-and-a-half per cent of the people in this country pay no income tax. Less than one per cent pay ninety-five per cent of the total amount the government collects. And yet, the income of the average person is far more today than it was even two years ago.

## Twenty Years Ago.

This day was Monday.  
Secretary of War Taft and his party reached Cuba en route home from Panama.

The Marion Presbyterian opened its semi-annual session at the First Presbyterian church with Rev. G. C. Gorlach, of Prospect, the retiring moderator, in charge.

P. A. Hofstetter had his right foot crushed when a heavy board fell off a building in course of erection and, edge on, hit his foot.

The Ohio State Journal ran a three-column cut of Miss Helen Louise Davis on its page devoted to music and the drama.

County Treasurer W. C. Wottring received a check for \$4,185.55 from the Hocking Valley in payment of its June taxes.

Charles Hofstetter and D. R. Crissinger were arranging for the opening of Fidelity court off east Center street.

Dr. P. A. Stengel perfected an electrical winker for a sign in front of his place of business on south State street, a ten-cent rat-trap and a sixty-nine-cent clock being used by him to work the electrical cut-out.

Mrs. Dossie Breymaler and Mr. Henry G. Spielder were married, the ceremony being followed by a wedding feast in their honor given by Mr. and Mrs. W. A. Burns at their home on north Greenwood street.

It was announced that J. B. Yazell and D. J. Shelton had become the owners, by purchase, of the Marion Electric Supply company.

Mrs. H. W. Culbertson returned from a stay of several months in Daytona, Florida.

Miss Fera Harriman returned to college at Hillsdale, Michigan.

Verdon Main left for Hillsdale, Michigan, to resume his studies there.

T. P. Wallace was elected president of the Marion Cemetery association. The resignation of Superintendent F. J. Van Horn was accepted at the same meeting.

Delbert C. Winkles, who had his left foot crushed in a frog at the plant of the Marion Steam Shovel company some time before, had it cut off at the ankle as gangrene had set in.

W. G. Harding was elected to the board of directors of the Marion County bank to fill the vacancy caused by the death of Harry True.

William H. Schaffner was elected to succeed Mr. True as president.

## Today's Worst Story.

BY WILL ROGERS.

Out West in the oil country a lot of fellows travel around in aeroplanes. They want to go and get back, and they found the best trains might fly for the oil business. Sometimes everything depends on beating the other guy to it, so when a new well is opened up there's a lot of planes buzzing around before daylight.

One family out there they'd drowned the cat with everything around its neck, but a string of pearls, and it always came back. They'd shot the thing with every gun in the neighborhood, and they planned to borrow an elephant gun from the Roosevelt family in the spring.

But the head of the family says: "Now, I'm going out to California in the plane tomorrow, and I'll take the cat along. I'll drop him into the Grand canyon when I get about 10,000 feet up over it, and then we can forget about Tommie."

So about three days later the wife went to call on the family lawyer and the preacher and some more friends, and she was crying something awful. She told them she was sure something terrible had happened to her husband, and told how he had started out to get rid of the cat.

"But it's only three days since he started out. Maybe he's decided to go on up to Alaska and see the country."

"Yes, but I ain't had a word from him, and Tommie come back this morning, looking kinda tired. I'm worried."—Copyright, 1927.

## Who's Who and Why.

SENATOR CHARLES CURTIS.

Senator Charles Curtis, Republican leader in the senate and a member of the House and finance committees, was born in North Topeka, Kansas, January 23, 1856. He was a member of the fifty-third congress, 1893 to 1909, resigning from latter when he was elected to the senate to the unexpired term of J. R. Burton. He re-elected to the senate in 1915 and 1921 explaining why our expenses are higher than they were ten or twelve years ago, senator said recently:

"The impression exists in the minds of people that our appropriations made subsequent to the fiscal year 1916 have gone over our control and are entirely too high. I am entirely wrong and not founded fact, in any sense of the word."

"We are, however, setting down to a prime basis which is broader and larger—a basis that has been enlarged and modified by the changes wrought by the invention of the gasoline engine, which has revolutionized our way of doing things; a basis that fords us good roads; a basis that puts a phone and radio in most of our homes; a basis that is fundamentally sound."

"What if our appropriations for 1926, \$216,874,254.31 in excess of those for 1916?"

"Ample appropriations must be made for crippled veterans, their widows and orphans. Appropriations must be made for our roads, roads and forest, and trails, and respect the wisdom of which I think we all agree."

"I have never believed in partisan politics as applied to the handling of our appropriations. I have served on appropriation committees nearly all of my service in congress and I have never heard the question raised to the politics of a person sponsoring this that appropriation."

"Appropriations are made on the high of merit. Our budget bureau has to separate the grain from the chaff. All that with the responsibility of handing appropriations are working industriously, and I am anxious to a certain end—to save money."

"It is, indeed, unfair to assume that all economists or spendthrifts are in any particular political party."

**MAPLE CINNAMON TOAST**  
Maple cinnamon toast is a delightful variation of the acceptable tea and toast served at the winter Sunday tea at bread in thin slices and then in triangles; toast a light brown on both sides. Spread with butter, powdered maple sugar and a dusting of cinnamon. Set in hot oven two or three minutes to blend sugar and cinnamon. Serve hot.

**DISH TO TEMPT INVALID**  
To make an orange omelet take one egg, few gratings orange rind, one tablespoon orange juice, few grains salt, one orange, two teaspoons butter, two teaspoons powdered sugar. Beat the egg slightly, adding the orange rind and juice and salt. Peel the orange, removing all white membrane, and cut into very thin slices. Sprinkle with one teaspoon of the powdered sugar. Melt the butter in hot individual omelet pan or frying pan. Pour in the egg mixture and cook over a low heat, shaking the pan and pricking the mixture with a fork until all the mixture is cooked. Roll or fold and turn out onto serving dish. Sprinkle with remaining sugar and surround with slices of orange.

What Has Gone Before  
The home of PROF and ELLEN ELWELL in Camden, Ind., one night in October, 1926, comes MARTHA DALTON, nurse, hearing a woman who had fainted on a train.

Elwell is an artist. He has a son, JIM, aged five. Late that night the woman bears twin girls and dies without revealing her name. The Elwells adopt the girls. The story then moves forward to the twins, now growing to beautiful womanhood, have been named MARGARET and ELIZABETH and nicknamed RUSTY and BERTY.

Jim Elwell enlists in the World War. He then discovers that one of the twins loves him and he leaves her.

He is in charge of a machine gun at the Battle of Sedan, he is shot, and, through a mix-up, is registered as John Powell, a nephew of his. He is removed to an American hospital and reported dead. The family gets the news

and is heartbroken. One day a stranger, introducing himself as an attorney, calls at the Elwells. Now Begin the Story

CHAPTER XIX  
PROF ELWELL came into the front room a few moments later, his eyes holding a questioning look.

"Mr. Markham?" he said in a puzzled but polite tone as the visitor rose and stepped forward, and then he added, "I am Edwin Elwell. You wished to see me?"

"I do that, Mr. Elwell—most emphatically," the attorney answered, a broad smile lighting up his rugged but kindly face. It was quite a long story that he had to tell, he went on, and one that deeply concerned the other members of the Elwell family. "I think, however, I had better make you acquainted with the inside facts first."

He sat down again and took back in his chair, while Prof. Elwell, with a wondering and apprehensive look in his eyes, drew up a rocker in front of his visitor.

"Now then, Mr. Elwell, the lawyer

began when the other was seated. "I'll put you in possession of the facts in this case just as they came to me. On the 27th of March, one week ago today, a telephone call came to me at my office in Indianapolis from the head doctor at the City Hospital, requesting me to come out there at once with my stenographer. It seems that a woman who had been brought there the day before, and who had been told that she had but a short time to live, wished me to take her dying statement."

"I hurried out there, naturally, taking my stenographer with me. We were shown into a private room where a woman lay propped up in bed. I recognized her immediately as Carlotta Ortiz, a once famous actress, whose name twenty years ago blazed in the white lights along Broadway."

Prof. Elwell nodded. "I remember her." He was telling himself, too, that he was prepared for what was coming.

The lawyer went on. "After being assured that I represented John H. Clayton of Indianapolis, the retired banker who once lived in New York, she asked that I have my stenographer take my statement. I have that statement here now, typed from the shorthand notes of my stenographer. It is word for word as the woman gave it."

Again Prof. Elwell nodded. His face had suddenly taken on an old look.

The lawyer opened the portfolio on his knees and drew from it a typewritten document bearing the letterhead of his firm and backed with stiff blue paper.

He passed the paper to his auditor. "You won't get the meaning of this story, Mr. Elwell," he said, "until you read the end. But read it very carefully and you'll see at the finish how it concerns most vitally the members of your family and yourself."

Prof. Elwell took the document with a hand that shook visibly. "I think," he said in an uncertain voice, "I think I know what's coming."

The other eyed him with a peculiar look in which was blended a touch of compassion. He laid his hand on Prof's knee.

And then, drawing a deep breath, Prof. Elwell began to read aloud. This is what he read:

CITY HOSPITAL,  
Indianapolis, Ind.  
March 27, 1910.  
"I, Carlotta Ortiz, hereby declare the following statement to be true in every particular:

"I had known and loved Jack Marvin when his first novel was published and long before he ever saw Edna Clayton. I believed he loved me then, although I knew he never meant to marry me. Finally he told me one day that our little romance had come to an end. He left me.

"Two months later I heard he had married an Edna Clayton, a beautiful girl from this city who was studying music in New York. Her only living relative was a bachelor brother, John H. Clayton, wealthy and formerly a New York banker, who had moved to Indianapolis.

"One evening in late October of 1908, nearly a year later, I changed to see Jack Marvin enter a hotel on Broadway, where I had learned he was living with his wife. I entered shortly afterwards, learned the number of his suite, and followed him up. I found him in the parlor of the apartment alone.

"Naturally he was angered at my imprudence, but after a moment or so he recovered his usual good temper and we talked for a while of the old days. Then he told me he expected his wife, who was taking dinner with some friend on another floor, to return soon and that I must go. But I refused to go unless he would accompany me to my apartment two blocks away.

"We left the hotel together. As we were crossing Forty-Second street a fire engine, drawn by a pair of powerful horses turned the corner. One of the front wheels struck Jack. He was knocked to the pavement and the hind wheel ran over his head. He was killed instantly.

"Horror-stricken and fearful of publicity I shrank back in the crowd and as soon as possible hurried to my apartment. There I thought of his young wife and that it was she who had stolen him from me. I was insane—mad from the shock of the thing I had just witnessed—and it was in this condition of mind that I decided to go back to the hotel and acquaint her with the manner of his death.

"When I reached the parlor I found the door open and also the door leading into the bedroom. I entered the latter, expecting to find Edna Marvin. But she was not there. On the dresser I caught sight of an unused letter addressed to Jack. I picked it up and read it. I am now giving this letter, which I have kept all these years, to G. W. Markham, attorney for John H. Clayton of Indianapolis."

(There followed a copy of the letter, which ran:

"To the husband I never again shall see."

"I was in this room when that woman visited you a few minutes ago. I opened the door a few inches to see who she was and recognized her as Carlotta Ortiz, the notorious actress. I heard all that was said between you. Oh, Jack, when I learned from her and your own words what this woman had been to you my heart broke. I never can live with you again, knowing what I know now. The man I loved and married is not the man to whom this woman had meant so much. Such a man can never be my husband again.

"You shall never see me again if I can prevent it, nor shall you ever see your unborn child that is expected soon now. I am going back to my brother in Indianapolis. While he has not written me since I married you, I know he will forgive me when he knows I have left you. My baby shall be born under his roof—not under one paid for by a father so lost to all sense of honor as to go from his wife's apartment with another woman to her. I am leaving here at once. My brother will send for my effects. I have money enough, fortunately, to get me to Indianapolis. It will be useless for you to follow me. I never shall willingly see you again. Goodby.

"Your heart-broken wife,  
EDNA."

(Conclusion of Carlotta Ortiz's statement.)

## She Got Rid of Those Two Bad Mornings

Menstruation is a perfectly natural process, but the painful part is NECESSARY. Long study has absolutely conquered menstrual pain. Science now offers women reliable and complete relief—in a simple, utterly harmless tablet called Midol.

The newest achievement of the laboratory has nothing to do with drastic, habit-forming drugs that kill pain by numbing the whole system! Midol acts directly on the organs affected by menstruation, and nowhere else. Yet relief and absolute comfort comes in five to seven minutes!

So, why have a twinge of pain—feel "low" or even uncomfortable? Or take anything to depress the heart or upset the system? All drug stores have Midol in a thin aluminum box that tucks in purse or pocket—for 50 cents.

## Do You Remember?

The Country Doctor.

"Edna Clayton Marvin is dead. She died in childbirth on the second night after leaving New York when she was taken from a train at Camdenville, Ind., by a nurse on the train who changed to notice her condition. This I learned from a printed inquiry I happened by accident to see in an Indianapolis newspaper, a copy of which I found in a dresser drawer of my room in a hotel in this city when I was playing here a year later. This inquiry stated that a woman taken from the Indianapolis by the night before had given birth to twin girls and then died without disclosing her identity or residence. A description of the woman followed. The notice was signed by an Edwin C. Elwell of Camdenville, Ind.

The thought struck me at once that it might have been Edna Marvin, and so I made a secret investigation which convinced me I was correct in my suspicion. I learned that the Elwells, Edwin and his wife, Mollie, with one child of their own, a boy of six, were rearing the twins and had given them their own names.

"Why I didn't make the truth known to John Clayton then and there is something for which I can find no excuse for myself now. Nor can I forgive myself now for my failure to tell the truth when, strangely enough, I chanced to meet the boy, Jim Elwell, and the two girls in the pulpit garden of a Chicago hotel, where I recognized them from the ring one of the girls was wearing, a ring that I once wore myself.

"But I still feared, I suppose, the unsavory publicity that would attach to my name if I disclosed the contents of this letter. That is my only excuse. I have been bitterly punished, however. That day marked the beginning of the end. I have been miserable a plaything ever since. Once a star behind the footlights, I dropped down the ladder rung by rung until, when I came here a month ago, I was doing an act in the cheap vaudeville houses. And now what? Ashes of life's disillusionment, vain regrets, poverty and—death."

Prof. Elwell looked up a he finished reading the final words of the statement.

"Ashes of life's disillusionment!" He repeated the phrase slowly, in a voice scarcely above a whisper, and there was an old little note in the low-spoken tones. "But the ashes are not always sifted through either poverty or death."

Into the keen eyes of the attorney there shot a look of understanding. Again he laid his hand on the other man's knee, as if to assure him that here was one who sympathized. But his words, when he spoke, carried no hint that he had glimpsed the possible hidden meaning underlying the other's rather cryptic comment.

"Mr. Elwell," he said in his strictly business tones, you understand, of course, that I came here only after having made a thorough investigation of this story. Mr. Clayton of Indianapolis?"

The other interrupted him.

"And you have come, as I understand," he said, without any beating about the bush, to take our girls to their uncle, this wealthy Mr. Clayton of Indianapolis?"

To Be Continued

Being thankful doesn't require great mental exertion.

## Love's Embers

Adele Garrison's Absorbing Sequel to "REVELATIONS of a Wife"

His Name Is Lincoln  
"WHAT on earth is the matter?" Mother Graham demanded acridly, as we neared the pump by the barn where Katie and Jim with an odd-looking foreigner were engaged in excited conversation, which Katie's shrill tones dominated.

"I did hope, Margaret," that while I was gone you would make some attempt to train that girl. But she's worse than ever."

"You mustn't expect Madge to waste her time upon training servants now, Mother," Dicky said with apparent sincerity and good humor. "A woman holding the salary and position she does can't afford to bother with trifles."

I flushed, for I was not sure how much of his little speech was meant, as a quiet sedition thrust. But I was left in no doubt as to my mother-in-law's meaning when she next spoke.

"Humph!" she said with a soft "When a woman can't afford to bother with her home it's time that she stopped having one."

It took all my supply of "grace and grit," the two qualities so desired by missionaries, to answer her with smiling nonchalance.

"Yes, I agree with you, when she cannot delegate her duties to someone else. Katherine is taking my place wonderfully this year. But you know, Mother, Katie is an unchanging loop, and I don't believe ever you could select that robe of hers, and you're the most successful animal tamer I know."

Katie Is Reckless  
I laughed softly and maneuvered the car so that before she could answer we were close to the gesticulating group by the pump. We saw a grizzled foreign looking man of perhaps sixty years, with the unmistakable air of one who has held some rank in the army. He was scrupulously dressed and had the air of arrogance which upper servants have brought to a degree unsurpassable by any other class of people. He was endeavoring to make himself understood to Jim—he was completely ignoring Katie—in execrable English. But Katie hung his dignity to the four winds when she excitedly hailed us, though I doubt if he understood anything save her contemptuous gestures.

"This bunch of soup greens," Katie began, and I knew from her favorite epithet that the man had incurred her deepest displeasure—"the same somethings I took out water. But don't you get born van drop. He great heep piece of hamburger with no manners on him. His room in here as cef be own you and us and his place, and—"

"Be quiet, Katie," Dicky commanded sternly, as she ran out of breath for a fractional second. Then he turned to the stranger, and said courteously: "Do not bother with the English. Are you French?"

The man's face brightened.

"Oul, oul," he answered, and proceeded to speak in French with fair rapidity. But with an accent which even my limited knowledge told me was very poor. I felt a tug at my sleeve, and turning my head, found Katie close beside me.

"Bah!" she muttered truculently. "Eef dot rooster a Frenchy, den me, I'm Queen Mary, of England."

"Hush! Katie!" I hushed her hurriedly, feeling my mother-in-law's disapproving eyes upon me, and hastily turning an irrespressible laugh into a cough. But I shared my little maid's opinion. The man's claim to be a Frenchman was false.

Dicky Is Annoyed  
That Dicky was annoyed I knew at most at once. He is never an adept at hiding his reactions to annoyance—and that unpleasant quality was most noticeable in the stranger's voice and demeanour. Finally, Dicky's rapid speech slowed down until I could understand what he said.

"We will sell you no water, but if you need it, and ask in a fitting manner, we gladly will give you whatever you wish. But your present manner is offensive."

The man's face reddened, and he spoke slowly, in execrable English.

"My niece, my wife and I, we do not ask favors. We pay for everything. We have all money necessary."

Dicky looked at him curiously, his anger mysteriously changed into amusement, as so often happens with his eccentric temperament.

"Now that's very nice," he said. "You're luckier than most of us over here. Where do you come from, anyway? Aren't you afraid you'll get lost over here in America?"

Of all Dicky's rignaroles I saw the man only grasped the last sentence, and for some reason it disturbed him.

"No, no, you mistake," he said quickly. "We got American, got American name, Lincoln. My name Henry Lincoln. Sorry I make you mad. If you say ask water, I ask, please."

"That's all right, old sport," Dicky laughed. "Take all you want."

"Thank you, thank you, I send man for water. Thank you, Goodday."

## Women Find

Great comfort in this new hygienic pad that discards easily as tissue—no laundry

By ELLEN J. HUCKLAND

Registered Nurse

ON many important counts, women are deserting the old-time "sanitary pad."

There is a new way. A way that multiplies protection. A way, too, that solves the old problem and embarrassment of disposal.

It is called "KOTEX." Ends the insecurity of the old-time sanitary pad. 5 times as absorbent! And deodorizes—ends all fear of offending.

As easily disposed of as a piece of tissue. No laundry. No embarrassment.

You get it at any drug or department store simply by saying "KOTEX." Ask without hesitancy.

## SERVICE HEAD AUTHORIZED TO BUY TRACTOR

City Board of Control Approves Plans for New Equipment and Material

Purchase of a tractor which is to be added to motor equipment of the city garbage collection department and a large amount of material to be used in street repair work here this year was authorized yesterday afternoon at a meeting of the city board of control, held in the office of Mayor Hazen.

Two bids were received on the tractor and the award went to the Marion Implement Co. on its bid of \$12,446 for a McCormick-Deering tractor. The only other bidder was Ed. C. Waters, who submitted a price of \$8,555 for a Ford tractor.

The McCormick-Deering machine was bought because the board was of the opinion that its size and capacity make it more suitable for the garbage collection service. It will be fully equipped and have dual rear wheels. The dual wheel is regarded as especially important because of the additional traction it provides.

**Use of Machine**  
The tractor is to be delivered within a few days and will be placed in service immediately. It will be used to transport garbage and refuse to the disposal ground west of the city, the plan being to have the truck and wagon now in use make collections throughout the city and transfer the refuse in trailers which will be attached to the tractor.

Service Director Benedict estimates that the garbage department can almost double its service capacity through the operation of this new plan.

The Millard Hunt Co., Baldauf & Schilenz, E. F. Patton & Sons and C. W. Leffler & Son of this city, the U. S. Construction Co. of Upper Sandusky, L. P. Cabett Co. of Cincinnati and the P. D. Van Camp Co. of Columbus were bidders on street repair supplies. Purchase of this material as well as the garbage collection tractor was authorized several weeks ago in legislation passed by the Council.

**Successful Bidder**  
The firm of Baldauf & Schilenz was the successful bidder on 50 tons of the material.

## NEWCOMER TO OFFICIAL SET IN CAPITAL

An especially posed portrait of Mrs. George H. Farnum, wife of the new Assistant Attorney General, a welcome addition to the official circle in the national capital.

Cabett Co., 8 1/2 cents and the Van Camp Co., 8 1/2 cents.

Baldauf & Schilenz were awarded the contract for 300 sacks of cement on their bid of \$2,900 a barrel. Other bids were Leffler & Son, Patton & Sons and the Hunt Co., each submitting a price of \$3,200.

The only bid on 150 barrels of Hadley's No. 1 patching material came from the Millard Hunt Co. and the contract went to that concern. The bid was \$12,500 a barrel. The Hadley material is the same that has been used here for several years in patching streets and has given the utmost satisfaction, officials say.

Although definite quantities of material were specified, this does not indicate that the entire amounts will be purchased, Mayor Hazen, chairman of the board of control, stated today. The supplies will be bought only as needed, he said.

Board members, in addition to the mayor, are Service Director Benedict and Safety Director Strayer.

Delivery of the street repair supplies will begin at once and will be used in an extensive program of work planned for this year. The cost is paid almost entirely from the city's share of gasoline tax collections.

## PLAN EUCRE PARTY

Arrangements Made For Moosehart Legion Event

Plans were completed for the eucré party to be held following the regular lodge meeting in one week at the meeting of members of the Ladies of Moosehart last night in the Moose Hall. Members of the committee in charge of the refreshments are Mrs. Harley McElroy, Mrs. Joseph Maswell and Mrs. Earl Reidenbaugh. The card party is open to the public and playing will begin promptly at 8:30 o'clock. Members of the lodge and their families enjoyed a social hour and refreshments following the regular meeting last night.

## TO PREACH HERE

J. V. Armstrong Traylor, of Magnolia Springs, will preach at both the morning and night services Sunday at the First Church of Christ, Main and Farmington sts. Services will begin at 10:30 o'clock in the morning and at 7:30 o'clock Sunday night.

## PURE FOOD DEALERS' ASSOCIATION PLANNED

192 Persons Attend Meeting of Retail Grocers and Meat Dealers

It was unanimously voted to organize a Pure Food Dealers' Association here at the banquet given by members of the local Retail Grocers and Meat Dealers' Association last night at Eagles Temple, with 192 members and guests in attendance.

Homer McCracken of Springfield, secretary of the State Retail Grocers and Meat Dealers' Association gave the principal address, discussing the merits of a Pure Food Organization. Mrs. R. T. Morgan and Mrs. Jules V. Barrell and Oliver Zuckerman, each gave interesting "pure food talks." The talk given by Ray Reidenbaugh, president of the Retail Association, was on the subject, "The Pure Food Association" in which he recommended such an organization for Marion.

Wholesale grocers, bakers, tobacco and fruit dealers were guests of the society. Plans were made for a similar meeting to be held at the temple, May 8.

## ROOF FIRE CAUSES \$25 DAMAGE TO RESIDENCE

Firemen from department No. 1 were called to the home of Mrs. A. M.

Oglebee, 547 S. Main st., about 5 o'clock yesterday afternoon, to extinguish a roof blaze which resulted in about \$25 damage.

The fire, which started from chimney sparks, was the second from the same cause at the Oglebee home within the last two months. Firemen were called there because of a roof blaze on Feb. 10, the damage on that occasion amounting to only a few dollars.

## FUNERAL RITES HELD

# It's A Fighting Colonel Who is Leading Famous Sixth Marines, Bound for China

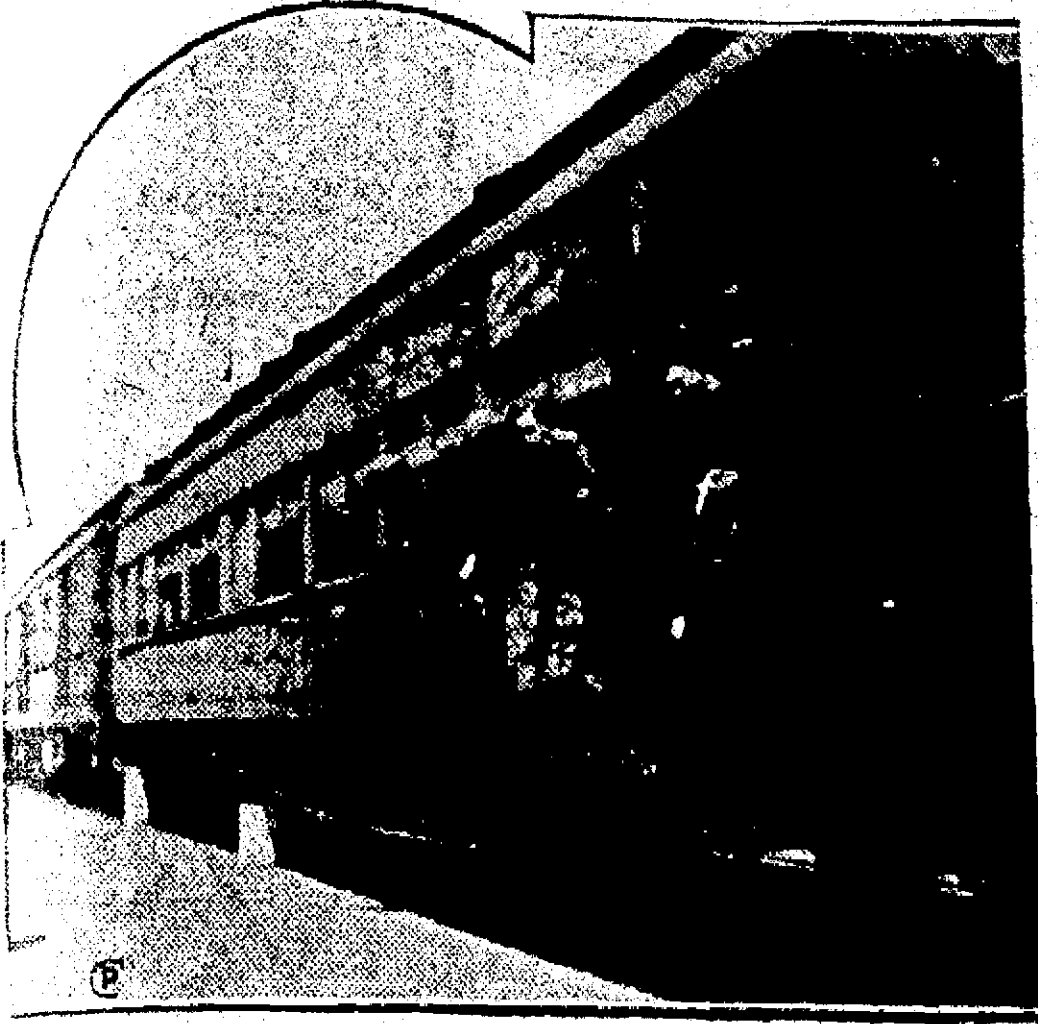

Photo of arrival of Sixth Marines at San Diego, Cal., from the east, on the way to China

SAN DIEGO, Cal., April 8.—A famous regiment of United States marines, the "Fighting Sixth," has embarked for China on the U. S. Army transport, "Henderson."

## HOTEL HEAD ARRAIGNED ON LIQUOR SALE CHARGE

James Ingles, 40, Proprietor of Lincoln House, Pleads Not Guilty

James Ingles, 40, proprietor of the Lincoln Hotel, 464 W. Center-st., pleaded not guilty when arraigned in Municipal Court yesterday afternoon on the charge of selling liquor and his hearing was set for 1 o'clock the afternoon of April 15. He furnished bond of \$500 pending trial.

Ingles was one of six men arrested two weeks ago when F. C. Tracey, a state prohibition officer, raided three West Side business places, including the Lincoln Hotel, in search for liquor violators. The five other cases have been disposed of and fines totalling \$1,100 collected. Ingles has been ill and unable to appear for arraignment until yesterday.

Therl Bartis, 37, an employee at the Lincoln Hotel, was one of the six arrested. His case was dismissed in Municipal Court when the time came for trial and Officer Tracey failed to appear as prosecuting witness.

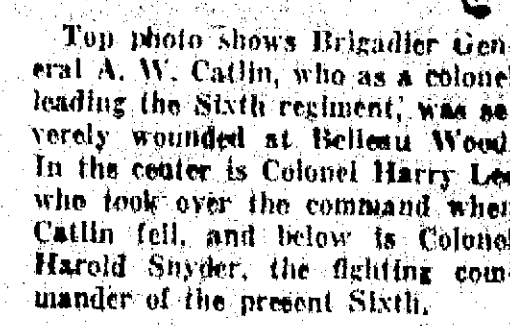

Not only is the regiment a famous one, but the ship is famous as well. It was this very "Henderson," which, on September 25, 1917, and January 24, 1918, took the first and second battalions of the "Fighting Sixth" from New York to St. Nazaire, France.

**Fighting Colonel in Charge**  
In command of the reorganized sixth regiment is Col. Harold C. Snyder. Colonel Snyder relieved Col. Charles S. Hill, who went to command the fourth regiment of marines now on duty at Shanghai. Eight hundred of the marines in the present sixth regiment were hastily mobilized at the Navy Yard in Philadelphia. The others were organized at Quantico, Va., and Parris Island, Mass.

During the World War, Colonel Snyder fought in the battle of St. Mihiel, as did all the "devil-dogs" of the old sixth. Later, he commanded the fifth regiment of marines during the occupation of Germany. Since then he has been stationed at Quantico and in Santo Domingo. He was in Philadelphia for a year, taking command of the sixth there.

The sergeant major of the present sixth not only served in the World War but remembers his adventures in the Boxer Rebellion in China quite clearly.

**Veterans Still in It**  
What now is the sixth regiment

Top photo shows Brigadier General A. W. Catlin, who as a colonel leading the Sixth regiment, was severely wounded at Belleau Wood. In the center is Colonel Harry Lee who took over the command when Catlin fell, and below is Colonel Harold Snyder, the fighting commander of the present Sixth.

is the remains of the old sixth of 1918, plus new material needed to fill up the spaces left by casualties and demobilization. But many of the original members of the original sixth, men who fought at Belleau Wood, when their commanding officer, Colonel Catlin, was severely wounded, men who remember the battles of Soissons, of St. Mihiel, of Champagne, and of Meuse-Argonne under Col. Harry Lee, are still in it. They remember having gone to Coblenz, Germany, where they remained until May, 1919, when the reliable "Henderson" brought them back home again for a memorable march through the streets of New York City. It was this same Henderson which took Brig. Gen. John A. Lejeune, commandant of the marines, to France in May, 1918.

This sixth regiment was cited three times for its achievements in the Chateau-Thierry Section. Two French army citations are sufficient to make an organization eligible for the award of the French fourragere, the head worn by every member of a regiment to show the high honor of the entire regiment. From the number of citations the high standard of the sixth is evident. Many of the present sixth have never been with the Sixth before, but in their few days of mobilization in Philadelphia and en route to China, the old sixth have been busy telling the recent arrivals of the glorious traditions of their regiment in France.

## FORMER MARION MAN IS STRICKEN IN CHICAGO

Charles A. Davis Dies: Left Sidney

Mr. and Mrs. R. H. Fox, St. James-st., have received word of the death of Charles A. Davis, of Chicago, formerly of this city. The message did not state the exact time of his death but it is believed to have been yesterday morning. Mr. Davis left Marion about a year ago. He had made his home here for 16 years and had been employed as foreman of the pattern room at the Osgood Mfg. Co. He was 62 years of age.

He is survived by one son, Roy N. Davis, of Chicago, and two sisters, Mrs. Lillian King of Chicago and Mrs.

Mollie Gerner of Brookville Ind. His wife preceded him in death. The body will be taken to Sidney for burial.

## SHIP HOUSES NOVEL RADIO SET

A model of the "Santa Maria," flagship of Columbus's fleet, houses a novel radio set built by Karl Bauer, of New York. The ship, constructed of violin wood which adds to its tonal quality, encloses a five-tube receiving set, with two stages of radio frequency (tuned), detector and two of audio. Its sails are set in such a manner that they deflect and diffuse the output of the small cone loud speaker. Bauer is shown above with his set which he calls the "Stradivari." When he wishes to conceal the dials he replaces the ship's side. At night interior illumination adds to its appearance.

BIDS HERE MAY 14

Estimated Cost of Improve-  
ment in Scott Township  
Is \$7,700

Bids for the improvement of the Roberts ditch, in Scott Township, Marion County and Crawford County, will be opened here on May 14, it was announced today.

The bids will be received by County Surveyor Cecil Leavens in the office of the county auditor on that day. The final hearing on the assessments was held yesterday by the county commissioners and some adjustments were made. The decision was to continue with the improvement and bids were ordered. The contract for the entire work will be let by the Marion County officials, although part of the work extends over into Crawford County.

The estimated cost of the improvement is \$7,700.

The hearing on the Roberts ditch in Green Camp Township will be held at 1 p. m. next Thursday, it was announced today.

# Schedule of Auto Values for Taxation Purposes Is Issued

## COUNTY AUDITOR ARRANGES LIST FOR THIS YEAR

Return Blanks To Be Mailed to Residents from Office Saturday

The schedule of automobile values, which Marion County residents must use in making their personal tax returns this year was given out this morning by County Auditor Earl G. Thomas.

The tax return blanks will be mailed out Saturday and tax payers will have them by Monday. The blanks must be in the hands of one of the assessors or in the office of the county auditor by May 1. A new type of a single sheet personal tax blank was used this year, and no place on it was available for the automobile value schedule.

All percentages on automobiles will be figured on the 1927 list prices. Thomas stated. On automobiles purchased since January 1, the machine must be listed at 80 per cent of the list price. On automobiles purchased before Jan. 1, the machine must be listed at 75 per cent of the list price.

Schedule of Values  
The other percentages which must be figured by the automobile owner are: 1926 model cars must be listed at 60 per cent of the 1927 list price; 1925 models at 40 per cent; 1924 models at 30 per cent; and 1923 models at 20 per cent.

Machines older than 1923 models must be listed at the true value in money as set by the owner, Thomas said. The schedule does not go back of the 1923 models.

Thomas again called attention to the automobile law which requires that before an owner can get license tags he must have listed the automobile for taxation. The list of automobile owners who do not list their machines goes to the automobile license bureau each year, and are checked when the license is issued. Last December scores of auto owners had to run back and forth between the Automobile Club and the auditor's office, getting their machine listed before they could get a license. All this can be avoided, Thomas says, if owners will be sure to list their cars before May 1.

No Cars Exempt  
The idea is prevalent, Thomas says, that because a machine is a machine which he values at \$100 or less, he does not have to list it because of the \$100 exemption he would not have to pay tax on. However, Thomas points out, if the machine is not listed, and the owner has to come into the auditor's office and have it listed next December, the owner stands a chance of having a 50 per cent penalty slapped on, which would bring the value to \$150, on which the owner would have to pay tax, as well as lose the time of going between the license bureau and the auditor's office.

Thomas said that his office will give the value of any model machine, from 1928 to the present, to any one calling his office. The list prices of all makes of machines are on file there. One thing his office will not do this year, Thomas said, is to fill out personal tax return blanks in ordinary cases. Unless the tax payer has some unusual difficulty in which he must ask for a decision from the auditor the blanks must be filled out by the property owner and brought either to the auditor's office or to one of the assessors named today.

List of Assessors  
These assessors are scattered about the county to enable residents to make their returns conveniently. The assessors are George DeLander, Laftue, V. O. Day, Meeker, O. S. Anthony, Waldo, H. V. Mounts, Prospect, Phil Ruedmond, Richland Township, W. B. Kollogg, Caledonia, G. W. Sharrock, Tully Township, and H. A. Martin, Morral.

These assessors are to accept returns

## Color, Material Aids to Silhouette, Says Lelong

Sketched at left, above, a "bols de rose" sports frock of fancy woolen fabric; right, an evening cloak of golden hair trimmed with Siberian squirrel.

BY LUCIEN DELONG

PARIS, April 8.—Although it is a well known fact that dark colors impart slenderness, whereas lighter hues tend to emphasize mass, I have by no means been willing to make my collection sombre and monotonous by using deep shades as an easy aid to my quest of the slenderest of silhouettes. On the contrary, the collection is distinctly bright and cheerful in tone; and I have made use of lighter shades even for town wear—a new departure for Parisian elegance. You will not find a single brown dress in the collection.

Light shades can be slenderizing if selected with care. Blue suggests itself as the color of least weight; and so it is around blue—all shades, ranging from navy to the palest tints—that I have built my summer collection. The featherweight blue motif is played around a special quaint and delicate and swears the maker to the correctness of them.

In the majority of returns of personal taxes, Lucien said today, the maker has only four items to consider. These are automobile, household goods, musical instruments and money. There should be no great difficulty in making these returns out, if the property owner does it carefully.

Thomas vouched personal tax payers also that unless they deduct the exemption themselves they will lose it. The exemption should be deducted from the total personal tax value at the bottom of the blank.

He also pointed out that tax payers who have moved from one taxing district to another since the last return was made should note the fact on the tax blank. The blanks, when mailed out, are stamped with the taxing district to which they are sent, and if the person does not note a change from one to the other, the auditor's office is ignorant of the change and distributes the tax money to the old district.

## REED COMMITTEE TO AWAIT CLOSE OF TRIAL

Dawes Grants Investigators New Lease of Life; Appoints Senator Fess

Detroit, April 8.—All activities of the Reed slush fund committee, under the new lease of life given it by Vice President Dawes, will be postponed until after the Ford-Sapiro trial ends. Sen. James A. Reed, Democrat, of Missouri, chairman, announced today. Reed was highly pleased with Dawes' action in ruling the committee's power to investigate primary elections extended through the recess of congress.

"The matter, though, will have to rest until I get back to Washington," said Reed.

"Naturally, I think the ruling of Mr. Dawes is right. Every lawyer of standing, who has examined the question, held the committee had power to act during the recess."

Sen. S. D. Fess, Republican of Ohio, was named by Dawes to succeed Sen. Guy D. Goff, Republican of West Virginia, resigned, on the committee.

## HERE'S MORE ABOUT DANCE BILL STARTS ON PAGE 1

for the anti-dancing bill, "body and soul."

"It's an insult to thousands of well-meaning people of Ohio," Senator Kuntler shouted. "It is an insult to the Masonic lodge."

Declares for Bill

Senator Kuntler was equally fervent in his remarks. "Regardless of how I stood on this bill, I am now for it," he declared. "I will move that it be taken away from Bender's committee and have it voted on at once. I will see that every member votes one way or another."

At that juncture it appeared that the burlesque demonstration staged by the committee, apparently intended to ridicule the bill, would be certain to result in enactment of the measure.

Recess Called

Just as the situation seemed to be at a crisis, however, the senate took a recess to give the members an opportunity to visit the house chamber and hear an address by United States Senator Frank B. Willis.

This recess also provided an opportunity for the senators to think the matter over calmly and when they went back into session about two hours later severe negotiations were consummated.

This was accomplished when Senator Kuntler presented a resolution, putting the senate on record as "disapproving and disavowing the manner in which the petition was presented."

"I am satisfied there was no malicious intent but the impression was contrary to what was expected," he stated. At first it appeared to my sense of humor but I soon got over it."

Senators Bender and Callister agreed to adoption of the resolution.

Bender Apologizes

"If any one feels hurt, I apologize," said Bender. "There was no thought of anything except a jest."

"A little humor hurts no one," declared Callister. "This senate is not overly amusing at best. No harm was intended. But if certain members feel that the impression needs correcting,

## Worries About Daughter's Marriage to 'Foreigner'

BY MRS. VIRGINIA LEE

When the founders of our country wrote the Declaration of Independence and declared that "all men are created free and equal" to enjoy "life, liberty and the pursuit of happiness," they had no idea, of course, what a great nation this was to become and how many different peoples were to make it their home. If they had, would they have visualized the haughty attitude of their "native Americans"—those who have been in the United States for three, four or five generations—toward those who have recently come from foreign lands?

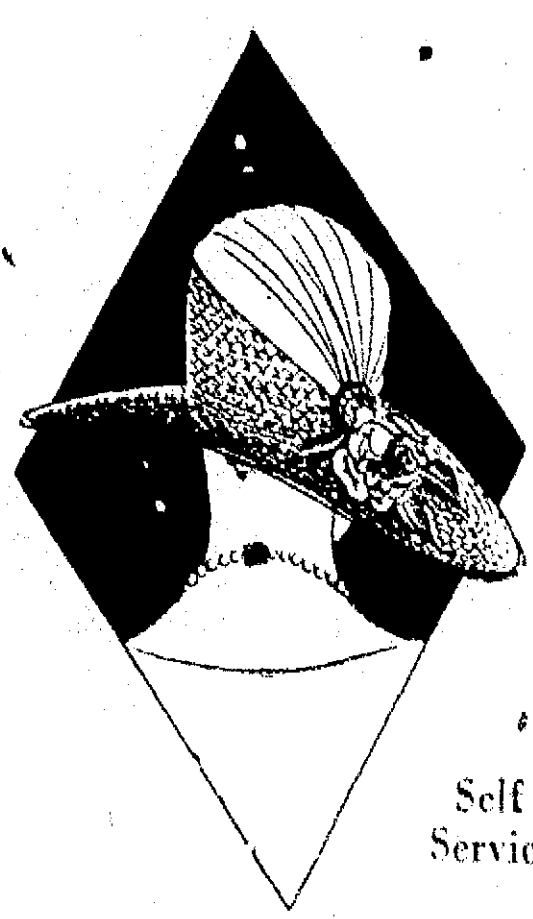

A "MOTHER" writes in to know what I think of her daughter marrying one of these "foreigners." He is a fine young fellow, evidently, but not an American born.

"Dear Mrs. Lee: My daughter is engaged to be married and I am rather worried about her choice. He seems a fine young fellow, but is an Italian of rather poor parentage. He has worked

his way up to a position of trust and can give her a good home, but I wonder if the difference in nationality will make any difference in their marriage. He has been brought up with different ideas, of course, to our American ones. "A MOTHER."

If your daughter and her fiancé truly love one another there is no reason why they cannot be as happy as if he had been born right on American soil. My experience with Americans born abroad and brought up in this country is that they retain some of their native characteristics which often make them more interesting. The young man is accepted on an equal footing by business associates, evidently, and the chances are he will make your daughter a fine husband and their children will be most interesting young Americans. I would stop worrying about it at once. Would you have the same worried feeling, I wonder, if the young man belonged to the Italian nobility instead of being of poor parentage?

I am willing to vote for the resolution.

"Let's vote for the resolution and forget," advised Senator Frank Tom of Toledo.

The resolution was adopted without a dissenting vote.

But whether this action closes the incident as far as its effects are concerned is a matter of conjecture in legislative circles at Columbus.

The Hill bill, which appeared to be doomed to certain defeat after final hearing before the senate county affairs committee, Tuesday night, may gain strength as a consequence of the vote in the senate yesterday, its advocates say.

The committee which now has charge of the proposal and which staged yesterday's burlesque, will meet next Wednesday night to decide its course of procedure. Yesterday it was predicted that the bill would be pigeon-holed by the committee and not reported for a vote in the senate.

Concedes Defeat

At the same time H. E. Hill, Marion County representative who is author of the bill, made a statement in which he practically conceded that it would not be passed by the senate.

Developments during the next week are expected to disclose whether such bill will be the fate of the measure or whether it will have a chance of enactment as a result of yesterday's demonstration.

The petition had been presented to the senate committee at Wednesday night's hearing by Rev. Frank J. Niles of the Lord's Day Alliance, who stated that most of the 11,000 signers were members of various churches in the state.

Its presentation in the senate yesterday came shortly after the body convened for the afternoon session. Not a word was spoken by the five senators who went through with the mock ceremony, but the pantomime was enacted so expressively that it had an electrifying effect.

Silence Follows Laughter

At first there was laughter from some sources but this was quickly followed by an ominous silence when finally changed to the roars of protest from incensed senators.

Playing of the band resounded through the state house, and spectators rushed from all parts of the building, many from the house where Senator Willis was preparing to speak, until the senate galleries were filled to overflowing.

## SOVIET GIVES WOMEN SLEEPER COMPARTMENTS

Feminine Sex Permitted to Travel in Privacy for First Time

Moscow, April 8.—Women traveling in the Soviet Union will now have, for the first time, the opportunity to take a sleeping compartment without being compelled to share it with men. The Commissariat of Ways and Communications has ordered all sleeping car conductors to reserve a number of compartments for the exclusive use of women.

Heretofore reservations were made indiscriminately and a single woman could never be sure who her traveling companions might be. Russian women, accustomed to sleeping with their clothes on while traveling, were not embarrassed by the custom, but foreigners have always complained most bitterly about it. With this change the Russian railways have removed the last obstacle which prevented their service from being in general quite as comfortable and satisfactory as the service of most Western European systems.

Mr. and Mrs. McWhorter Hosts to Memorial Baptist Groups

Members of the Philathea and Barnea Bible Classes of Fife Memorial Baptist Church, were entertained at the home of Mr. and Mrs. Jay McWhorter, Davids-st, last night. Following a short business meeting of members of the Y. P. B. a social hour was enjoyed during which Mr. and Mrs. McWhorter were presented a gift from the classes. Later the class members went to the home of the teacher, Miss Dorothy Fox where the time was spent socially and with contests. Honors in the contests were won by Mr. and Mrs. Jay McWhorter, Miss Pauline Dickason, Miss "Belma Skidmore, Ernest Converse and Charles Osterhold. Lunch was served. The next meeting will be in one month with Miss Juanita Sanderson, Davids-st.

## WILLIAM MALIN SNYDER, RICHWOOD RESIDENT, DIES

Funeral Services To Be Held from Late Home Sunday

Richwood, April 8.—William Malin Snyder, 61, died at his home here this morning. Nerve exhaustion was given as the cause of death.

Mr. Snyder was the son of Mr. and Mrs. Jacob Snyder and was born in Richwood, Nov. 25, 1862. He followed the trade of an electrician. Surviving are his widow, Orpha, two sons, Ben, Richwood, and Wilford, San Francisco, Cal., two daughters, Mrs. David McNeal, Richwood, and Mrs. Robert Strif, Marion, and two grandchildren. Funeral services will be held from the late home at 2:30 o'clock Sunday afternoon with Rev. B. F. McKinnon and Rev. W. T. Williams in charge. Burial will be made in Claiborne Cemetery with Winters & Son in charge.

PRISONERS FREED

Columbus, April 8.—Commutation of sentence was granted Clifford Snarely, Peble County, and John Heck, prisoners at the Loudon Farm, by Governor Doushey today.

## \$100,000,000 IN WYOMING COAL LAND IN COURT

Big Legal Battle Stirs Interest of State in Title Dispute

Cheyenne, Wyo., April 8.—Northern Wyoming is stirred over a legal battle being waged at Gillette, in Campbell County, to decide title to a valuable coal field near there in which coal worth in excess of \$100,000,000 lies waiting for an operator capable of exploiting the field.

The dispute began four years ago when Mark Shields, then president of the bank of Gillette, spent \$200,000, said to have been bank funds, to erect a plant and extract 111 million tons of coal from the land held by him and partner, Sam Ditts.

In 1923, faced with charges of embezzlement, Shields committed suicide. A suit for \$15,000, based on a lien in behalf of miners and a former manager of the mine has been filed in Gillette and a firm of Ohio capitalists are reported to be trying to clear their assumed title to the property, acquired several weeks ago.

Lease Was Sold

Following Shields' death in 1923 the lease on the property containing the coal, which involved a ten cent per ton royalty to the United States Government, was sold for \$25,000 to E. C. Raymond of Newcastle, former district judge, and B. E. Thoenning, a partner.

In 1924 shortly after the above transaction Raymond and Thoenning sold their lease to C. P. Abrogast of Casper for \$25,000 and an additional six per cent per ton royalty above the government claim. The company organized by Abrogast quickly went into receivership and development of the 1,000 acre coal field was at a standstill.

Who Will Profit  
A few weeks ago representatives of an Ohio company bought the lease of Ditts, original partner with Shields, which was again authenticated by the government and the filing of the miners' suit reopened the question of who will profit by the immense wealth contained in the field.

R. C. Henderson, a mining engineer, who admits he is acting for "Ohio Interests," declares that there are at least 111 million tons of coal "on sight" in the field under dispute. The formation lies as that all may be mined by the strip method for 60 cents per ton, he said.

The fight over the \$15,000 wages due former miners who worked for Shields is destined to involve scores of prominent citizens of Northern Wyoming in the effort to decide who is to profit by the disputed rich deposit.

## TO RUN NON-UNION

Vesta Coal Co. Declares New Policy Will Affect 3,000 Miners

Pittsburgh, April 8.—Miners of the Vesta Coal Co., which supplies the Jones and Laughlin Steel Corporation with bituminous coal, will be operated with non-union miners henceforth.

Joseph Edwards, general superintendent, in making this announcement, estimated that 3,000 would be affected. That number normally is employed in the Vesta mines.

Earlier in the bituminous suspension, the Pittsburgh Terminal Corporation, one of the largest in western Pennsylvania, announced it would operate with non-union miners after standing by the union for years.

## AMERICAN CONSUL TOLD TO INVESTIGATE MURDER

Don't neglect your feet

## Free Foot Comfort Demonstration

Wednesday, April 13

By an Expert from Chicago

Pains in the feet go through the nervous system to remote parts of the body, causing distress which nothing will remove till the real trouble is corrected.

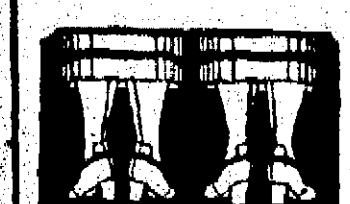

Whatever may be the cause of your suffering—weak or broken down arches, weak ankles, painful heels, crooked or overlapping toes, excessive perspiration, corns, callouses or bunions—you can rid yourself of it permanently and quickly.

On the above date a Foot Comfort Expert from the Staff of Dr. Wm. M. Scholl, will be at our store. He is thoroughly trained in Dr. Scholl's methods of foot correction and he will make Podo-graph impressions which reveal the exact nature of any foot trouble, and demonstrate how the correct Dr. Scholl Appliance or Remedy will relieve you.

FREE SAMPLES Come in and get a free sample of Dr. Scholl's Zino-pads for Corns. They give instant relief and remove the cause—friction and pressure.

# NO 1927 DROP IN ACREAGE OF TEXAS COTTON

Growers Report Normal Planting, with Increase in Some Sections

San Antonio, Texas, April 8.—Report made to the headquarters of the West Texas Chamber of Commerce today indicates that man's cupidity is not the cause of the drop in cotton acreage. According to figures furnished by that regional organization, it appears that there will be no decrease in the territory served by the chamber.

Although a disastrous slump in cotton prices has led to the general belief that the cotton growers of the South will voluntarily curtail their acreage from 10 to 25 per cent and avert the danger of another surplus, there were many factors made as to how best effect a reduction and crop diversification was held as the savior of the farmers.

Many communities pledged themselves to crop diversification, in other words, reducing the cotton acreage a certain percentage and utilizing the soil for the raising of other necessary crops.

## See New Surplus

It was believed that the cotton surplus would be lessened by the critical nature of affairs would show enough to make an effort to reduce the acreage, thereby boosting the 1927 crop, eliminating the surplus for the following year, and thus place himself in a reasonably strong economic position.

Farmers in some localities may have been in West Texas Chamber of Commerce officials declare, but they are inclined to believe that man's natural cupidity will again give the cotton farmer a lesson he is not likely to forget.

Reports show that normal cotton planting is proceeding now. Reliable figures from some sections show that there is a decrease in cotton acreage will be laid up before the planting season is over.

The belief seems general over the cotton section, it would appear, that there will be a big increase in cotton acreage throughout the south this year. Hence, the farmers argue, there will be a big advance in cotton prices, and by shipping in a few extra acres the early growers will reap a harvest.

## May Reap Whirlwind

Charges have been made that in some cotton sections there have been local meetings, in which agricultural leaders advised their neighbors to "talk a lot about cotton acreage reduction," but to "let George do the reducing." These local authorities on the cotton problem are said to have advised planting 10 acres more of cotton than in previous years, and then reap the harvest.

It seems to be a case of sow now, reap later. Cotton officials declare but when the time comes to gather the crop they fear that many will reap the whirlwind. The situation, if general, would indicate that the proponents of compulsory reduction in cotton acreage knew that they were talking about when they said the only way to control the situation was by enacting restrictive legislation. Another such year as last, they say, will most surely mean a continued effort throughout the cotton states to radically cut the acreage—and do it by law.

## The Great Barrier to Health—Poisons in the System

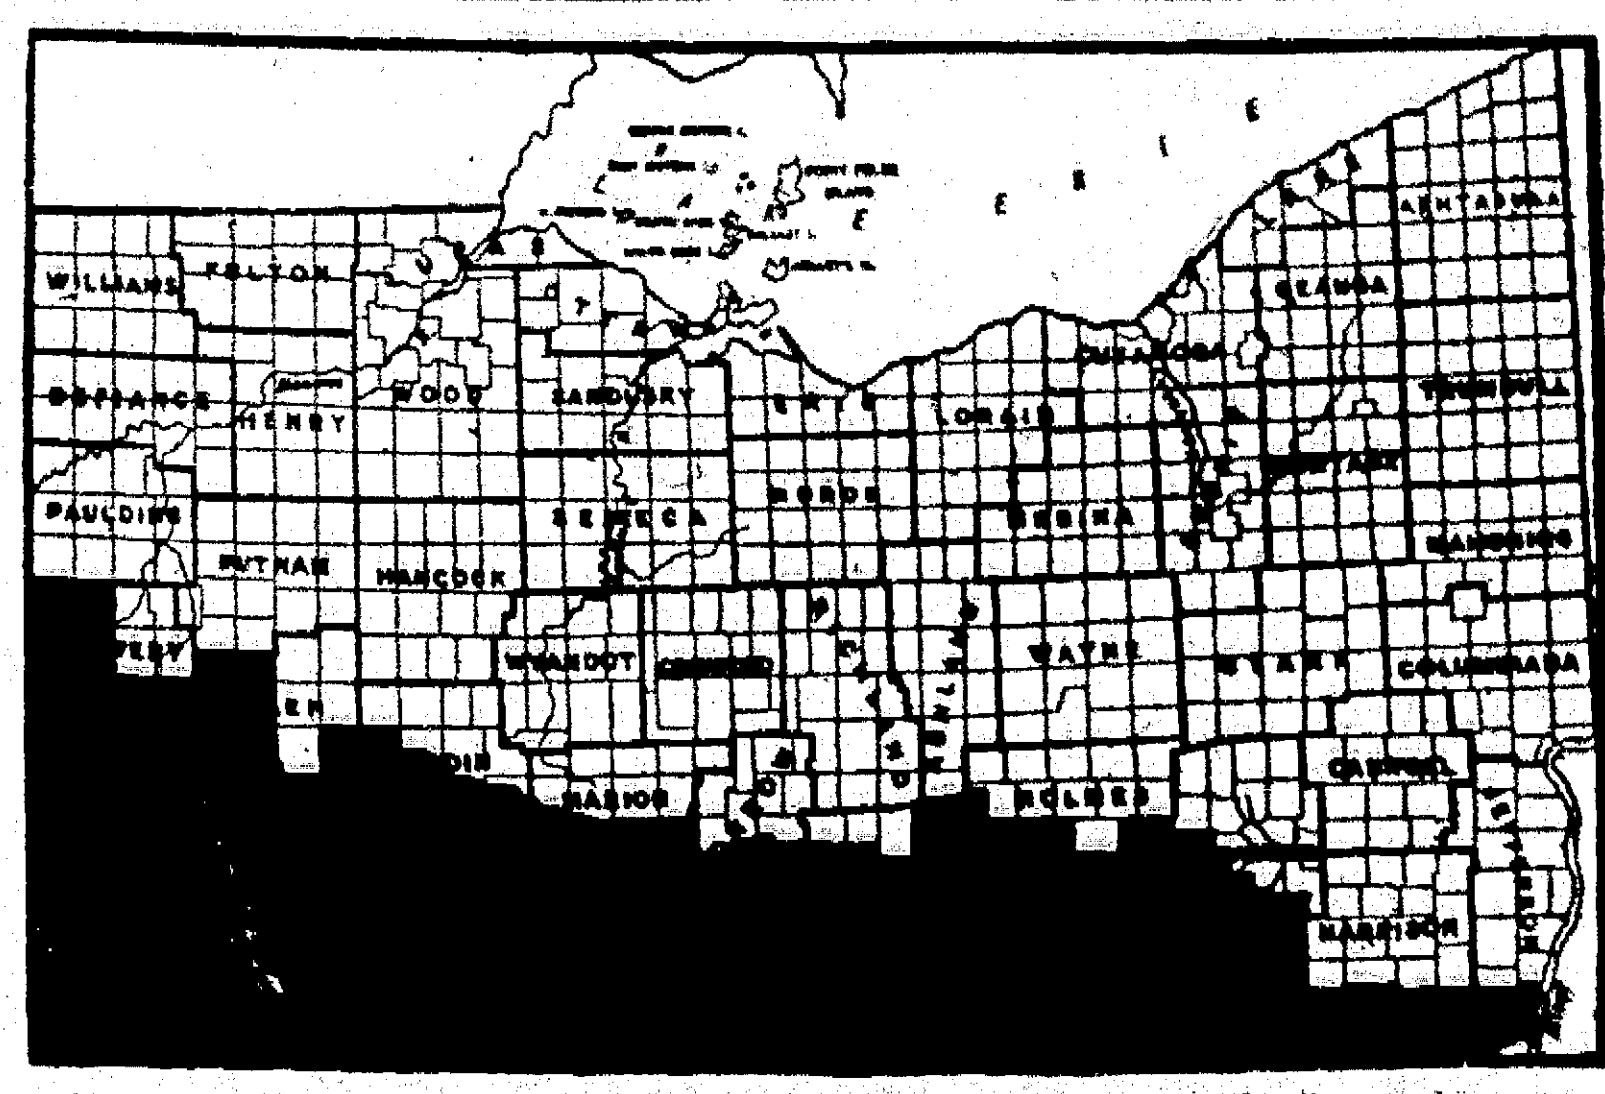

Franklin, Ohio—"I had tonsillitis and my poison went through my system for a time I had all kinds of suffering and distress. My back ached so that I could hardly walk across the room. I took Dr. Pierce's Anuric Tablets and they drew all the poison out of my system and put my kidneys in perfect condition. I was relieved of the swelling in my feet and my back disappeared and I have had no more trouble of the kind."—Mrs. F. A. Cumrine, 613 Lynn-st (picture taken).

To clean out the kidneys and the bladder, take Dr. Pierce's Anuric Tablets and you will be on the high road to health and happiness.

## WOLVES BRING TERROR TO SIBERIAN REGIONS

Moscow, April 8.—Packs of wolves ranging in from the timbered regions of central Siberia are terrorizing the inhabitants of Byk county according to dispatches received here from Novosibirsk. The long winter, bringing with

it scarcity of food, has inspired the wolves to unprecedented audacity. They have attacked several villages at midday, driving the inhabitants indoors and killing scores of domestic animals. From the province of Novgorod come reports that sheep flocks have been badly depleted by wolves and that the danger from the animals has grown

until no peasant will stir abroad without a weapon.

## STOMACH TROUBLES ARE DUE TO ACIDITY

Tells of Pleasant Home Treatment to Bring Swift Relief

So-called "Stomach Troubles"—indigestion, dyspepsia, gas, sourness, etc., are, in probably nine cases out of ten, evidence of "too much acid in the stomach" souring the food, causing the formation of gas and starting acid indigestion.

Gas distends the stomach and causes a full, oppressive burning feeling known as heartburn, while the acid irritates and inflames the delicate stomach lining. Get rid of gas and acidity, and you get rid of indigestion.

To stop or prevent the sourness and gas, to neutralize the stomach acids and keep the stomach sweet and free from indigestion, a teaspoonful or four tablets of Bismarck Magnesia should be taken in a little water after eating or whenever gas, sourness, pain or acidity is felt. This quickly sweetens the stomach, neutralizes the acidity, stops the gas and is harmless and inexpensive to use.

Bismarck Magnesia, powder or tablets only, can be obtained from any drug store and its daily use keeps the stomach in fine condition, enabling it to do its work without the aid of artificial digestants.—Adv.

# LEGISLATORS AWAIT MESSAGE OF GOVERNOR

Senate Defeats Dearmond  
Slot Machine Bill Indorsed  
By Donahey

Columbus, April 8.—Ohio legislators today were awaiting receipt of a proposed message from Gov. Vile. The governor is dealing with the slot machine situation in Ohio.

The senate, late Thursday, defeated by a vote of four to seven, the Dearmond bill, said to have been introduced by the governor, prohibiting the use of slot machines for gambling purposes. Twenty-six senators did not vote.

During the debate which immediately preceded the vote on the Dearmond bill, Sen. J. Eugene Roberts, Youngstown, declared that "slot machines have been slipping over the governor's shoulder." He stated that the Dearmond bill would make illegal the use of "all kinds of slot machines, except one" which, according to Roberts, is being manufactured "in a former Columbus brewery."

Cites Influence  
"The influence and power of the slot machine interests over many local officials and even over some courts have been tremendous," declared Governor Donahey, in a statement issued Thursday night. "The public knows of an obnoxious lobby which induced the Ohio Senate to keep in office for years a utilities commission of members whose terms had long since expired."

"From today's episode in the senate, it is apparent that the slot machine lobby is fully as powerful as the public utility lobby has been in the past," continued the governor. "More of the story will be told in a message to the general assembly."

By a vote of 62 to 44, the house took from the house utilities committee, the Marois bill, which seeks to remove the alleged discrimination against Ohio coal mines and users of Ohio coal by providing for reductions in the existing intra-state freight rates. The action of the house was in response to a motion by the author of the bill, who stated the committee had been unable to decide what disposition to make of it.

Gives no Calendar  
The Marois bill now takes its place on the calendar and can be called up on a question of passage any time.

By a vote of 18 to 9, the senate defeated the Collister bill which provided that motor transportation companies might lower their rates without first obtaining a hearing before the state utilities commission. Nineteen affirmative votes were required to pass the bill.

Bills passed in the senate include: By Emmons, Summit County, new measure, providing for distribution of bonded debt upon annexation; and, by Carpenter, Jefferson, creating a municipal court at Steubenville. Both bills go to the house. The Emmons bill is designed to meet objections of the governor who recently vetoed a similar bill introduced by Senator Emmons.

House Passed Bills  
Bills passed in the house include: by Hodson, providing for licensing and regulating dogs and for payment of damages for livestock caused by dogs; by Krueger, revising and codifying laws relating to the issuance of bonds by political subdivisions; by Husted, providing for establishment of a county planning department and appointment of a county planning engineer; by Miss Penny prohibiting misleading advertising in the practice of optometry; by Herbert, giving to the common pleas court jurisdiction in proceedings for appropriation of private property; by Lefever, ratifying the revision of the United Pharmacopoeia and the National Formulary; by Proctor, providing for publication of notice of sale of goods, chattels, lands and tenements on execution.

All of these house bills now go to the senate.

# Marysville High Planning to Enter Track Team in Delaware, Columbus Meets

Prospect and Bexley Outfits Scheduled with Union County Athletes for Dual Contest; Many New Faces Seen at Practice Session

Marysville, April 8.—Marysville High track men will again contest for honors at the track meet to be held in Delaware and at the Columbus April 23 and 24. Meets have been arranged with the Prospect and Bexley High of Columbus and other teams will be signed up as they can be obtained. It is expected that a number of these will be held in Marysville, which will be received well by the track followers. A track meet has been staged here since the county of four years ago.

Coach Kingsmore, director of athletics, who has charge of the track work, has not picked an entire team because he wishes to give new candidates a more thorough try-out. He has not decided which events he will enter with his team as this will also depend on the material he has to work with.

Among the entries however, are Edie in the discus event; Edwards in the two-mile run and Schindler in the 100-yard dash. Other entries are yet to be made from the following who have gone out for the team: Macken, Brown, A. Scheiderer, Mills, Linzmeier, Crothers, Southard, Orashood, Snyder, Yarrington, Gundersman, McCamery, Edge, Otte and Baker.

Marysville won fourth place at the district meet at Delaware last year taking 17 points. However, several of last year's veterans were taken out of the ranks by graduation and it will be a puzzling proposition to fill in these gaps. Oloper, a freshman last year, performed remarkably well considering his experience, and took third place in the 100-yard dash and fourth in the 440. He is also missing from the ranks of the locals, having moved from Marysville.

**GREEN CAMP LADIES' AID SOCIETY HOLDS MEETING**  
Green Camp, April 8.—Wednesday afternoon the Ladies' Aid Society of the Green Camp Baptist Church held a meeting at the home of Mrs. Tholman. ## NOTICE OF APPOINTMENT

Estate of Loren Smith, Deceased.  
Notice is hereby given that Dora E. Smith has been appointed and qualified as administratrix of the Estate of Loren Smith, late of Marion County, deceased.

Dated at Marion, Ohio, this 23rd day of March, A. D. 1937.  
LOUIS B. McNEAL,  
Probate Judge, Marion County, Ohio.  
May 15, 1937.

## LEGAL NOTICE

In the Court of Common Pleas of Marion County, Ohio.  
In the Matter of the Administration of the Estate of Loren Smith, Deceased, a corporation not for profit, for authority to mortgage church property.

Notice is hereby given that the Trustees of the Green Camp Baptist Church of the Village of Green Camp, Ohio, a corporation not for profit, filed its petition in the Court of Common Pleas of Marion County, Ohio, in Cause No. 1024, praying for authority to mortgage the following described real estate:

Situated in the County of Marion, State of Ohio, and in the Village of Green Camp and bounded and described as follows: Being 35 feet off of the north side of Lot 54, commencing at the northeast corner of said lot, thence running south 25 feet; thence west 25 feet; thence north 25 feet to the north boundary of said lot; thence east 25 feet and 6 inches to the place of beginning, be the same more or less, but subject to all legal highways. Said property being known as the parsonage property of said corporation, the parsonage or residence of the Minister of said Church, being located on said real estate and being a part thereof.

Authority is hereby given that said estate is being asked for the reason that said Church finds it necessary to refinance and extend an indebtedness of \$10,000 now owed by said Church and it is necessary to borrow \$10,000 to pay on an existing indebtedness and said Church has no way of securing the same to the satisfaction of the mortgage except by giving a mortgage on said real estate to secure the payment of \$10,000 now owed by said Church and it is necessary to be used for the benefit of said Church.

Said Church will be for hearing on and after the 15th day of April, 1937. The Green Camp Baptist Church of the Village of Green Camp, Ohio, a corporation not for profit, by FLOYD T. UNCAPIKER, its President of Board of Trustees, John H. Clark, Attorney for said petitioner, Mar. 15, 1937, Apr. 1, 8.

## TELLS DANGERS OF GALL STONES

HEPATIC TORPIDITY  
Victims of Gall Bladder Trouble, Inactive Liver and Bowels Should Watch These Danger Signs

Dizziness, headache, shortness of breath, distress after eating, gas, bloating and bowels, pressure or sharp pains in right side that often shoot through to the back, coated tongue, bad breath, lack of ambition, weakness, nervousness and nights of restless misery caused by bad dreams or inability to sleep.

These are symptoms of poisonous waste matter in the system often called auto-intoxication, indicating improper bowel action, hepatic torpidity or gall bladder trouble—and when they come to folks in middle life they should be checked at once, before the damage of more serious ailments like gall stones and high blood pressure are developed.

In the opinion of the writer, one of the best things in the world, for conditions of this kind is the inexpensive home use of "Klax-Ko" Tablets, which Bradley's Drug Store or any other good druggist supply on a blinding guarantee to cure their cost. If easily collected, beneficial results are not obtainable inside of a week! Don't wait until your entire system is polluted with poisonous waste or until gall bladder inflammation or gall stones makes a dangerous operation necessary, but start the use of "Klax-Ko" Tablets today. If "Klax-Ko" does not help you, it will not cost you a penny.—Adv.

Now does the yawn need to be loudly vented any more than the sneeze.

## If You Would Know Nothing Ask U. S. Attorney General

Is John G. Sargent Sly, Wise and Quiet or Unsophisticated?

BY CHARLES P. STEWART  
WASHINGTON, April 8.—Being now in this third year as attorney general of the United States, John Garibaldi Sargent's beginning to hear rumors of "crime wave."

JOHN SARGENT

**You Are Rich!**  
**If Your Blood Is Pure and Healthy**

What bank account can compare with good health? \$100 will start you now. Clip this ad, present it with \$1.00 in cash to BARTLETT'S DRUG STORE and carry home a bottle of BOZMAN'S PEPTONIC. Also carry home the \$5.00 box of BOZMAN'S 7-11 NERVE TABLETS that are given FREE with every purchase of this tonic. THIS OFFER GOOD DURING APRIL—Adv.

Isn't the attorney general to go off half cock?  
If he decides there's really an unjustifiable amount of crime, then he'll see what can be done about it, but he won't take anybody's unsupported word for it that there's a "wave."  
Before he leaps, "Jawn," examines the place he'd due to land on. He examines it with a microscope. Having done so, he generally elects not to leap.

JOHN G. S. the hardest man in the cabinet to extract any information from. He's the hardest man in Washington. He probably is the hardest man in the United States. It isn't impossible that he's the hardest man in the world.

The question is: Won't he tell anybody anything because he doesn't want to, or because he doesn't know?

It isn't mere newspaper men that he baffles. Hard boiled congressional investigating committees yank him up before 'em, to put questions to him that they're a right to ask.

They never learn a thing from him. He doesn't dodge. He simply hides behind a stone wall of ignorance—that is, ignorance of anything his questioners want to find out. He'll tell fish stories all right.

SARGENT'S been interrogated as to the "increase" in crime, many's the time and often in the last two years.

He hadn't heard of any—until just now.

Then how did it happen that prisoners were being stowed two in a bunk at Leavenworth and Atlanta?

What, that so? How "intriguing?" What about all this juvenile delinquency?

"Put, put! You don't say! How sad! None of my young friends have gone wrong."

Did he think prohibition had anything to do with it?

Oh, no. 'Cause he didn't see any saloons.

But Mrs. Mary Walker Willebrandt said:

Abraham! That reminds him. Did you ever hear that story about the two French Canadians. Alphonse and Pierre? Well, they were fishing, etc., etc., etc. no end.

"Jawn" simply puts this on: he does it to absolute perfection.

He gives the impression of an attorney general who doesn't know his way in through the front door of the Justice Department building and up stairs and how to sit down at his desk without a skilled assistant to guide him—and he won't let his skilled assistant talk.

It makes him appear like a dub, but it makes him an impervious and a burglar proof safe, too.

He's a nice old man, as polite and kindly in his manner as anybody could ask, but either he's the most unsophisticated attorney general who ever held office in Washington or he's the sleaziest one who ever measured six feet six in his socks.

### BEHIND THE SCREEN

Jackie Coogan  
NOW that Jackie Coogan finally has had his hair cut with a good deal of ceremony, he's all set to begin his career anew. His first starring picture for M-G-M is "The Bugle Call," in which the youngster gets a lot of enjoyment out of wearing an army uniform just like any other boy his age.

Patty Arduke, perhaps the screen's most popular comedian six or seven years ago, has signed a five-year contract with a German producer that will probably net him about \$2,500,000. All of the pictures are to be made abroad and they may be brought to this country when completed.

Although Arduke hasn't acted on the screen for five years he has directed several pictures for Famous Players-Lasky under the name of William B. Goodrich.

When Joan Crawford enters a dancing contest in Hollywood, the other contestants realize their chances to win are few, for Joan used to be a musical comedy dancer.

"War Birds," which M-G-M hoped to produce as a rival to Paramount's "Wings," may be indefinitely postponed since efforts to gain cooperation of the War Department and Air Service have failed.

Gilda Gray's first United Artists' picture will be titled, "Passionate Island." Sounds as if Gilda will get another chance to do the South Seas dancing that made such a hit in

"Aloma of the South Seas."

Famous Players issues a denial of the report that Clara Bow is ill. They insist they have made no postponement in their plans for her.

Florence Vidor holds the women's tennis championship of the Paramount West Coast studios.

### MANSFIELD SLAYER NOT TO BE GIVEN REPRIEVE

Thoma and James Lyon Will Pay Penalty for Murders Tonight

Columbus, April 8.—Contradicting rumors that Governor Donahy intended a last minute reprieve or stay of execution for George Thoma, Mansfield murderer, it was announced at the governor's office today that the governor will positively take no action to prevent the electrocution of Thoma tonight at the Ohio State Penitentiary.

The governor declined to act in Thoma's case, after a verbal report was received on Thoma's plea for executive clemency from the clemency board, which refused to act.

James Lyon, Cleveland, also will go to his death in the electric chair tonight at the prison.

The two men will be executed between 7:30 p. m. and midnight, Thoma probably going first to the chair.

### LEAGUE PESSIMISTIC

Belgian Delegates Declared Nothing Done, Nothing Limited

Geneva, April 8.—Open pessimism was expressed today in the League of Nations preparatory disarmament conference, during a discussion of proposals for limitation of military expenditure, which are being opposed by the United States and Great Britain.

"We have done absolutely nothing and so far we have limited nothing," interjected M. De Brouckere, Belgian delegate.

"The limitation of military expenditures can be decided but it is a secondary and indirect method of limitation," replied Viscount Cecil, British delegate.

### GOOD NEWS FOR SKINNY FOLKS

Increase Your Weight 10 or 15 Pounds

When you are underweight, it is the surest sign that the food you eat does not give you the nourishment you need to be strong and healthy and full of vitality. Put some good solid flesh on your bones, nourish the tissues properly and you will feel like a fighting cock.

Nothing acts so quickly and surely to correct the nutritive processes as a scientific digestive stimulant. Science tells us that stimulation of the digestive organs supplies the nourishment our bodies must have to grow healthy and to have the power to resist disease and to fight the breaking down of the life force.

A remarkable stimulant- tonic has been devised for just such conditions as these. It is delightfully palatable and is prepared by an old Virginia concern in business for nearly a century. Druggists and physicians have come to know this stimulant as "Old Monticello Tonic."

Get a bottle today from your druggist, take a small wineglass-full before your next meal—see how much better you next meal—see how much better you'll feel throughout the body. A few days' treatment will bring a quick change in run-down conditions and overcome lack of energy.—Adv.

### COUNTESS WOULD ANNUL MARRIAGE, COUNT FLEES

New York, April 8.—Countess Countess Schack Gracie De Urbino, of New York and Washington, through her legal counsel, today served notice upon her husband by publication that she has brought action to annul the marriage. The couple were married secretly in 1921, but less than a year later the young husband fled to Chile.

For the first time in 20 years a woman has been given permission to run in the civil engineering department of the University of Texas.

# 'Merry Widow' Will Get Under Way Monday Night

## Individual Averages and Tournament Handicaps in National Loop Announced

Steinmetz's 181 Average Is Taken as Scratch Score for Measuring Handicaps; Kopp's High Mark of 189 Not Considered Because of Small Number of Games

Preparation for the annual "Merry Widow" bowling tournament, which will get under way Monday night at the Y. M. C. A. alleys, has drawn up a list showing the average of each individual in the National Bowling League and his handicap in case he enters the bowling tourney. The rules state that the average of the league shall be taken as a scratch score and the handicap of each individual in the league shall be the difference of his average score and the scratch mark. The highest average in the National League is taken as the measure of the handicap.

The highest average goes to Kopp, who has rolled 189 in 33 games. But since he has not rolled in even half the games of the league this season, it has been decided to take the average of Steinmetz, who has rolled 181 as an average in 81 contests.

### Nineteen Largest Handicap

With an average of 143 being the lowest in the league for the season, the largest handicap among National League bowlers is the 10-point mark. The majority, however, will not receive over 10 pins as a handicap and many will go below that mark. Shoemaker, who won the tourney last year in all three divisions, has a handicap of three pins this season. Williams, who was second last season, has a handicap of one pin, and Thomas, third last year in the singles, receives a three-pin handicap.

The number of games, average, and handicap of each National League bowler follows:

Name	G	Ave.	Hand.
Kopp	33	189	0
Steinmetz	81	181	0

## MARION RIFLE TEAM DEFEATS DELAWARE

Local Marksmen Win Shoot by Margin of 47 Points

The Marion Rifle team Wednesday defeated the Delaware marksmen, 947 to 900, in a match on the local range.

Delaware Imbody, Deunman, Duffe and Varnum composed the Marion crew, who won with a total of 194 points from the four positions, kneeling, sitting, standing and prone. Imbody was second for the locals with 190. Duffe ranked up 189, and Grimes and Marston each made 187.

Grimes was high man for the visitors. He counted 101 from the four positions. Lewis was second with 183. Varnum received 181, Starr made 174 and South chalked up 170 out of a possible 200 marks.

A group match will take place on the Delaware range next week, it was announced here today.

## LAST NIGHT'S FIGHTS

At Boston—Joe Woods, California, defeated Joe Monte, Brockton, 10 rounds.

At Philadelphia—Jack Gross, Salem, N. J., defeated Dan O'Connell, New York, by technical knockout in second round.

At Pittsburgh—Cuddy De Marco, McKeesport, defeated Joe Legros, Johnstown, 10 rounds.

## TRAINING CAMP CHATTER

NASHVILLE, TENN., April 8.—The Yankees are homeward bound today, the series with the Cardinals ending in a draw when St. Louis won the last game 10 to 8. Babe Ruth got a homer, but Frisch hit two homers and two doubles to boot.

Atlanta, Ga., April 8.—Brooklyn's pitchers apparently are not ready for the opening game. The Dodgers triumphed Atlanta yesterday but had to score 11 runs to do it. Clarence Griffin, southpaw rookie, has been released to Memphis.

TUSCALOOSA, ALA., April 8.—THE CLEVELAND INDIANS ARE BOOKED TO PLAY THE UNIVERSITY OF ALABAMA BASEBALL TEAM HERE TODAY IN AN EXHIBITION GAME. THE SEWELL BROTHERS, LIKE AND JOE, NOW WITH THE INDIANS, FORMERLY PLAYED BALL FOR THE UNIVERSITY HERE, AND A LARGE CROWD IS EXPECTED TO WATCH THEM "DO THEIR STUFF."

WASHINGTON, April 8.—If this year's world series is between the Giants and the Senators, there will be some heavy bets on the Giants. They licked the Nationals again yesterday, 10 to 9, and the Nats looked worse than usual. The Giants have now won seven out of the nine games of the spring exhibition series with the Senators.

Louisville, Ky., April 8.—Having won two straight from the Memphis club of the Southern Association, Ray Schalk's White Sox were in Louisville today, prepared to take another Dixie team into camp, the Colonels of the American Association.

KANSAS CITY, MO., April 8.—WEATHER PERMITTING, THE SECOND GAME OF THE SERIES BETWEEN THE CUBS AND THE KANSAS CITY BLUES WILL BE PLAYED HERE TODAY. YESTERDAY'S EXHIBITION WAS WASHED AWAY BY SPRING SHOWERS.

BOSTON, April 8.—For the first time since 1916, "Bill" Carrigan led the Red Sox to Fenway Park today to battle with the Braves in the first of two games of the inter-city series.

Batteries for today's game: Harless and Hofmann and Benton and Taylor.

Wichita Falls, Tex., April 8.—Though the Tigers have won 15 out of 20 games they have played in Texas, Manager Moriarty is not satisfied with their class of play. In beating the Wichita Falls Spud-ders yesterday by the score of 7 to 2, the Tigers used three right-handers, Doyle, Holloway and Collins.

## EAST SIDE ACES HOLD ANNUAL CAGE BANQUET

Will Close Season at Bucyrus with Shaw Game April 16

The Marion East Side Aces, one of the leading amateur basketball teams of the city, last night held their annual banquet in the Y. M. C. A. dining room. Tables were decorated in orange and black colors in keeping with the occasion.

Those present at the banquet were Manager George Beason, Capt. Jimmy Lingo, Bob Peason, Fisher, Fetter, Arent, Thorley Sargent, Gambl, Bob Yazel and the mascot "Dunk" Miller. It was announced during the banquet that the Aces would close their season at Bucyrus Saturday, April 16, when they will play the Shaws of that city.

The United States government printing office makes seventy-five different kinds of ink.

## OR WHAT HAVE YOU?

The dim pennant chances of the Brooklyn Dodgers depend mainly upon Manager Robinson's pitching staff—always his strong point. This year Butch Henline, star catcher obtained from the Phils, may play a big part in getting 100 per cent out of that staff. Here he is warming up the day's choice.

## First of Big Teams Are Entered for Ohio Relays

Wisconsin and Cornell Enter Athletes in Fourth Annual Relay Meet To Be Held at Ohio Stadium, April 23; Cornell Is Newcomer in Events

COLUMBUS, April 8.—To Wisconsin and Cornell go the honor of being the first "big" schools to enter athletes in the fourth annual Ohio Relays to be held here April 23. Cornell, a newcomer to the meet, participated in several days ago, and Wisconsin enters here just now.

Cornell has entered a pair of weight men. They will compete in the triathlon, the all-round weight event which is unique to the Ohio Relays. The pair are Wright, who does around 150 feet in the hammer throw, and Anderson, who owns marks of 45 feet in the shot put and 135 feet in the discus.

Sixteen Relays The 16 relay races continue to attract the most attention among the prospective entrants. In all classes, nine of the 16 are for universities and colleges. There are four for the four-year group and five for the latter. In each relay race there are individual as well as team prizes.

The triathlon, consisting of the hammer, discus and javelin throws and the shot put, also has been changed this year. Any weight man may compete in any one of the four events as a single event, with individual prizes awarded, or he may compete in any three of the four for triathlon honors as well. Hawkins, of Michigan, won the triathlon a year ago.

Entries for the Ohio Relays close Saturday, April 16.

## TEN LEADING BOWLERS RETAIN HIGH POSITIONS

Standings in American Bowling Congress Today Remain Unchanged

Peoria, Ill., April 8.—Standings in the American Bowling Congress tournament in progress here remained unchanged today despite the fact that four teams crashed over the 2800 mark in last night's five-man rolling event.

Nor were there any changes among the 10 leaders in the other three events. The Guardian Life Insurance Company team, of Madison, Wis., shot 2921 to top the squad. Akron Oil, Akron, 2887, Horne Recreation, Milwaukee, 2863, and Anthony Dry Cleaners, Erie, Pa., 2852.

The Temple Allys, Akron, which included the two men who annexed the doubles title at Toledo last year, fell back with 2774. C. Ashton, one member of the two-man team, shot a 503 series while his partner, P. Young, dropped 614.

## OTTAWA AND BOSTON HOCKEY TEAMS CLASH

Boston, April 8.—Ottawa Senators and Boston Bruins were setting up today in preparation for tomorrow night when the second game of the world's series in hockey will be played. Eighty minutes of play passed in the first game last night without a score. President Frank Calder of the National Hockey league said it looked as if the series would go over the allotted 10 games. Everywides in hockeydom say it is a matter of time that "the breaker" will decide the title.

MAPLE LEAFS READY The Toronto Maple Leafs, champions of the International League, are rounding into condition for the 1932 pennant chase at Augusta, Ga., under the watchful eye of Manager Leo Fohl.

## HOW THEY SIZE UP

BY BROWN INDIANS

MOST uncertain team in major leagues. Weakened defensively and offensively by loss of Tris Speaker team entire race without capable outfielder or cleanup hitter to replace him.

Count on consistent performance of good pitching staff and airtight fielding of last season (the club ranked second to overcome Speaker's loss).

Have capable manager in Jack McCallister, for years coach of the team. Lacks the fire of Speaker but has eliminated inharmonious and lax training ideas.

Success of team, as I see it, depends mainly on pitching of huge Garland, Buckner, left-hander, and Hadlin, rookie phenom.

## CANCELS BOLT

Seattle, April 8.—Saddened by the death of his father, who was accidentally asphyxiated, Ted Morgan, world's junior lightweight champion, has cancelled his proposed title match with Vic Foley in Vancouver, B. C., April 22, it was learned here today.

## SNOW AND BASEBALL

At the opening of the National League season in Boston 20 years ago the first three games had to be postponed because the baseball ground was covered with half a foot of snow.

## Marion Bowling Tourney to Continue for Three Weeks on Y. M. C. A. Alleys

Prizes To Be Awarded to Winners in Singles, Doubles and Mixed Doubles; All Entrants Must Be Members of Marion Bowling Leagues

BY EDDIE SCHONERER Sports Editor, The Star.

MARION. Y. M. C. A.'s annual bowling tournament, the "Merry Widow," will get under way Monday night and continue for three weeks ending April 30, Ed Meredith, manager of the local alleys, announced today.

Prizes will be awarded winners in the singles, doubles, and mixed doubles and all entrants must be members of the National Industrial or Business Women's Bowling Leagues.

A bowler in any of these leagues may participate in as many events and as often as he desires.

No games may be rolled except in the presence of the alley manager who must be notified when the series is to be started. An entrance fee of 25 cents must be paid before any series is started.

The rules make a condition for the man who rolls in both leagues. The average final score shall be the average of the total pins in both leagues. Three conditions prevailed last year.

Scratch score will be the average of the highest bowler, man or woman, of the regular bowling season. The handicap of each bowler shall be one-half the difference of the scratch and the bowler's average score.

Prizes for the winners will probably be bowling balls, bags, and shoes, it was said today.

Shoemaker Wins Donald Shoemaker, placed first in all three events last year. He landed the singles with a 673 score, he and Blum took the mixed doubles with a score of 1190, and he and Burnett took the doubles with 1264 pins.

Williams was second in the singles last year with 650, Chambers and Boyd took second place in the mixed doubles with a mark of 1113 points and the combination of Metz and Cull landed second in the doubles with 1250, only two pins behind the leaders.

Interest in the tourney has grown this year and more entrants than ever before are expected to take part.

There is a good deal of intuition even in being a good bowler.

# Marion Basketball Season Closes at Y. M. C. A. Tonight

## EAST SIDE AGES AND MIDWAYS ON LAST BILL

Compton Will Referee Triple Group of Amateur Cage Contests

Coach Allen "Babe" Compton of Harding High basketball team will referee the last basketball game of the season in Marion tonight at the Y. M. C. A. The first game of the night starts at 7 o'clock when the Epworth M. E. cagers tie up with the Midgets in what promises to be all that can be expected of any basketball clash. All games will take place on the lower floor. Epworth, armed with Evans, Garrett, Cram, Stafford, Partridge and others, have already defeated the Midgets in a previous game this season, having downed them in the finals of the Class B division of the county tourney.

The second contest promises more thrills than ever. The Howitzers, runners-up in the recent county amateur basketball tournament, will meet the Juniors of '26, who were doped as the winners of the tourney but were set back in the semi-finals by the guardsmen. It will be plenty hot.

Midways vs. Aces  
Then comes the third and final battle of the year. The East Side Aces will stack up against the Midways crew. We have been informed that the Midways have twice defeated the Aces this year on the Star auditorium court but still the boys from the east side are after revenge. Whether or not they get what they're after, the game will be worth looking over.

That's the bill that spells the wind-up for basketball in this city this season. The Steam Shoelace and Unions, professional and semi-pro teams, have long ago disbanded for the season.

Nominating TOMMY LOUGHRAN

BECAUSE he is one of the most scientific boxers in the heavy weight ranks.

Because it has been said of him that he is the one man Tommy wants to duck. That's the same opinion was once held of Jack Delaney matters not.

Because, speaking of Delaney, Loughran is about to get his long sought chance of Delaney's light heavy weight title in a bout with the latter early next summer.

Because Loughran's backers believe he can beat the sharpshooter despite the fact that Delaney has beaten a more impressive list.

Because Loughran can at least boast of beating George Carpenter which feat was enough to permit Tommy (Gibbons and Tuiney to crow.

And because Loughran hopes, by a victory over Delaney to prove that Philadelphia can produce fighters as well as hushed resuscitators.

### PACIFIC COAST CREWS TAKE FINAL WORKOUTS

Berkeley, Cal., April 8.—The crews of the universities of Washington and California contended themselves with light final workouts today. Their regatta for the Pacific Coast championship will be held on Oakland tomorrow morning. For the first time in six years the California crew is conceding a chance to beat the National rowing champions.

### GRID MANAGER GETS \$7,500

Followers of professional football in England were amazed recently by the announcement that one club manager was receiving \$7,500 a year for his services. This is far in excess of the average managerial salary in the British world of sports, though a more legitimate comparison with the sums paid to the major league baseball managers in the United States.

Coach Godfrey of Wittenberg Chief Speaker: Meeting Held at Hotel Harding

Coach Ernest A. "Ernie" Godfrey of Wittenberg College, was the chief speaker at the annual Harding High basketball banquet, held at the Harding Hotel last night. Mr. Godfrey gave a general talk on athletics, stressing the point of playing the game "fair and square."

Others who gave brief addresses were Frank O. Goggin, president of the school board; Superintendent Jesse H. Mason of the public schools; Principal K. H. Marshall of Harding High; Coach Allen Compton, Assistant Coach Dewey Bohyer, Joe Rimmer and Hugh Shultz.

Election of a captain for next year and awarding of letters were not held last night. Letters will be awarded within the near future, it was said.

## Giants and Athletics Should Lead in Major League at Close of Ball Season Next Fall, Declares Brou

BY NORMAN E. BROWN

THE close of the major league race next fall should find the teams standing as follows:

- National League
1. Giants
  2. Cubs
  3. Pirates
  4. Cardinals
  5. Reds
  6. Braves
  7. Dodgers
  8. Phillies

American League

1. Athletics
2. Detroit
3. Washington
4. Yankees
5. Indians
6. Browns
7. White Sox
8. Red Sox

I say ahead.

I studied the teams, collectively and individually, down south. I talked

with the managers. I gave them my opinions. It is just as I see it.

I look at the close of the season. Two years ago I figured 729 in a season of the pennant winners and named five of the eight teams in the American League to finish in the top five. As for last year I'm on the same boat with these guys. The only wonder is that about in a day three or four days after they leave home. I don't remember just what happened.

Makes Attempt

I wouldn't try to name the winners this year, except that I have trouble—and it is done.

But being expected to plan the role of prophet I stand by the above selections.

The fact that I place Morgan's Tigers second indicates that I nominate them to fight it out with the Macknons for the flag. If George the poet and his shoguns lose out the Macknons and

the rest of the field I can stand by it.

Strengthen Giants

The acquisition of Kousser and Hoots by the Giants give them no added playing strength than that acquired by any other team in the National League, especially in batting. In strengthening the team McGraw took the star of the Reds and the manager and second baseman of the Cardinals, weakening those two teams, which built about in.

I place the champion Cardinals fourth because of O'Farrell's inexperience in handling men and the usual hazards a championship club faces. I hope they surprise me—because of my high personal regard for O'Farrell, a prince of a chap.

If it has been your annual custom to save these selections and then laugh at them the following fall, rear these out. They may make good reading—

which ever way you look at it.

# HEYDLER AND OFFICIALS OF NATIONAL LEAGUE MEET TO CONSIDER CASE OF HORNSBY

## JOHNSON AGAIN ACTING HEAD OF AMERICAN LOOP

Resumes Duties After Three-Month Rest; Prepares for Coming Season

Chicago, April 8.—Ban Johnson, president of the American League, was back in town today following a three-month's sojourn in the hospital. He is in good health and is expected to feel better in a few days, said Johnson. He was deeply tanned and in excellent spirits. He immediately resumed his duties as president of the league and is expected to be in the office of the league season next year.

Johnson had been completely restored to health and was ready to return to his duties, he explained. "For three months I was in bed, but I did not realize it until I started on my period of rest." Johnson's return to the executive office of the American League is a relief to baseball circles. He has been absent from his duties for almost a year after a bitter clash with Commissioner K. M. Landis over the "Gold-Speaker" case.

At that time Frank Navin, president of the Detroit club, was named acting president of the league. Whether further controversy between Landis and Johnson will develop over the latter's resumption of executive duties, is problematical.

It is believed, however, that both principals in "baseball's bitterest feud" will be content to call the incident closed.

## BROOKLYN AND ILLINOIS TIE IN SWIMMING MEET

Each Team Has 22 Points; Johnny Weismuller Gets Revenge on Kojac

Chicago, April 8.—Brooklyn Central Y. M. C. A. and the Illinois Athletic Club were in a deadlock today for the first place in the National A. A. U. swimming meet. The four-day classic comes to a close tonight.

The Brooklyn team and the I. A. C. each has 22 points. Chicago A. A. C. is third with 13 and New York A. C. is fourth with 11 points.

One National record fell during last night's competition. Johnny Weismuller, mainstay of the I. A. C., won the 200-yard free style event in 2:01 1/5. This shattered his old N. A. A. U. record of 2:14 4-5.

In this event Weismuller took revenge on George Kojac, 17-year-old star of the boys' club of New York, who defeated Johnny Wednesday night in the 150-yard back stroke event. Kojac trailed the I. A. C. star by 15 feet at the finish of the 220-yard race.

Walter Spence was the hero of the Brooklyn Y. M. C. A. team and largely responsible for their first place. He scored his second big victory of the meet last night in the 300-yard medley relay covering the distance in 1:45 4-5, close to the record.

## VANDALIA SHOOT

First Registered Trapshooting Match of Season To Be Held April 13

The Amateur Trapshooting Association will hold a registered shoot at Vandalia, on Wednesday, April 13, starting at 1 p. m. The first race will be a 100 target singles competition. The shooters in this contest will be divided into four classes, A, B, C and D. Each high gun in their respective classes will receive a handsome trophy.

The second competition of the day will be a 50 target handicap match; 16 to 23 yards. Four trophies will be awarded to the winners of this race, the high scorer of the 16 and 17 yards, 18 and 19, 20 and 21 and 22 and 23. A record crowd is anticipated at this shoot.

This is the first registered shoot to be held at the Amateur Trapshooting Association grounds under the management of the A. T. A. The permanent home of the trapshooters of America is at Vandalia, Ohio. The 1927 Grand American will be held there the last week in August. They have the finest gun club grounds in the world.

Many Questions To Be Asked as Moguls Go into Session at Pittsburgh; Hornsby To Be Present at Meeting; Decision in Case May Be Given Late Today

BY DAVIS J. WALSH

Pittsburgh, April 8.—Conservative to the end, John A. Heydler and the National League have begged to announce that at last they feel themselves entitled to enjoy some of the national irritation contiguous to be questions and answers game and test, fairly reveling in their pain, they were to begin asking themselves embarrassing questions promptly at 11 o'clock this morning. The questions will be a bit difficult but answers are what the boys are seeking and these may prove downright baffling.

They were to take the strange case of Rogers Hornsby, financier or ball player or both, as their focal point, the occasion being a special league meeting, called to see what can be done, if anything, about a young man who harbors the unique notion that property is something you sell at your own, your person's valuation or not at all. However, there are other considerations at issue, including the ethical question of whether a man really should be part owner of one club and second baseman of another.

That is one of the questions that John and his men must daily with today. Others will include the following:

Will Hornsby steadfastly hold out for \$105 a share for his stock in the St. Louis Cardinals, a full valuation of \$122,500?

Can he be beaten down to Sam Breadon's best offer, which happens to be \$60 a share?

Will he, all compromises failing, attempt to start the season at second base for his Giants next Tuesday?

If which case will Heydler be justified in adhering to his official stance that Hornsby cannot be eligible to play for the Giants while holding stock in a rival club and will Heydler then go so far as to have the umpire in charge order Hornsby out of the park?

What will "Jawn" do?

And, if this is to be done, will John McGraw stick to his announced determination to obtain an injunction against the National League interfering with Hornsby's pursuit of happiness and money or both, thus taking the entire issue into court, as Hornsby has threatened to do for weeks?

Frankly, a compromise seemed to be the only solution as the league prepared to go into session at the William Penn Hotel at noon today. Heydler already has tendered Hornsby a proposition, whereby the price-fixing would be left to an arbitration committee, mutually acceptable to himself and Breadon, but it is understood that Hornsby's attorney, William Caher, replied that there was "nothing to arbitrate."

Hornsby, he intimates, was traded to the Giants without his consent after he had won the pennant and world's series for the Cardinals last fall and that, therefore, it is up to the league, which countenanced the trade, to see that its ethics are clear. He also makes the point of law that no one can interfere with a man's livelihood.

because he refuses to sell his own property.

Says Hornsby Glad

The League has countered with the claim that Hornsby was glad to come to New York and that he proved it by accepting a salary of \$20,000, whereas he was refusing \$50,000 a year in St. Louis. It also questions Hornsby's ethics in signing a New York contract when he knew, it charges, that his price of \$105 a share would act as an almost prohibitive impediment to the sale of his stock.

Quite so; there will be plenty of agitation today, not the least of which may be occasioned by Hornsby's threat to report every day at the ball park and thus collect his salary from the Giants whether he plays or not.

Still, peace would seem to be the inevitable outcome and in this connection, it may be noted with due approval that Hornsby decided yesterday to attend the meeting at Heydler's request and has so notified his barister, who was en route from St. Louis to New York. Previously, he was all for turning up absent, which might have succeeded in getting everyone nowhere with great rapidity, Hornsby included.

Will Hornsby steadfastly hold out for \$105 a share for his stock in the St. Louis Cardinals, a full valuation of \$122,500?

Can he be beaten down to Sam Breadon's best offer, which happens to be \$60 a share?

BRITISH MANUFACTURERS  
FRIENDLY WITH RUSSIA

Manchester, Eng., April 8.—Relations between manufacturers of textile machinery in Lancashire and Russia are cordial.

Twelve months ago Russia placed an order for fifteen million dollars of machinery in Lancashire. These contracts have been completed by next week and the Russians have fulfilled their financial obligations to the letter.

According to S. J. Emeline, general manager of the All Russian Textile Co., Russia is to place further

textile machinery orders in Manchester to the extent of \$12,500,000 provided credits extending over two years are given.

DROP IN WHISKY SALES

Dublin, April 8.—Less drinking in Great Britain and prohibition in the United States is playing havoc with Irish whisky sales, according to figures issued here.

The total export figures show a remarkable decline for 1926, 182,904 gallons being exported compared with 276,490 in 1925, and 545,763 in 1924.

ICE CREAM BIG FEATURE  
IN U. S. FOREIGN TRADE

Washington, April 8.—Ice cream, now in powdered form, the best frozen makes up an important feature of America's foreign trade with the Far East and Latin America, according to the Department of Commerce.

Most of the ice cream shipped to South America is concentrated in powder.

The first experiment in exporting ice cream from United States to China took place in 1925, when a shipment of ten gallons in quart bricks, was shipped from the Pacific Coast to Shanghai.

The demand increased until in 1926 one firm alone shipped 9,000 gallons of ice cream in frozen bricks and 167,000 frozen ice cream bars to Chinese customers.

Frozen ice cream is shipped only to Shanghai of the far Eastern ports, and is consumed largely by the foreign population, although a taste for the delicacy is being acquired by the better class of Chinese.

JAY VAUGHAN BECOMES ELKS' EXALTED RULER

Succeeds Grant E. Mouser, Jr., Assistant Attorney General; Installation Service

Jay Vaughan was installed as exalted ruler of Marion Lodge No. 32, I. O. O. F., at the regular weekly meeting held in the lodge quarters on S. State st. last night. He succeeds Grant E. Mouser, Jr., former Marion city solicitor who is now employed as special counsel in the office of the Attorney General at Columbus.

Other officers installed, to serve with the new exalted ruler during the lodge year terminating in April, 1928, are R. E. Prettyman, esteemed leading knight; T. A. O'Leary, esteemed loyal knight; Frank Wiedemann, esteemed lecturing knight; J. M. Heigel, secretary; W. H. Schaffner, treasurer; Edward Locher, tyler; John Caulfield, trustee; W. H. Holzerstott, member of the Elks Holding Co.; G. E. Mouser, Jr., delegate to the grand lodge meeting; J. W. Wark, alternate grand lodge delegate.

Following the installation, which was in charge of Past Exalted Ruler Charles L. Murphy, appointment of Carter M. Patton as squire, James W. Wark as chaplain and Edward H. Higgins as inner guard was announced by Exalted Ruler Vaughan. This will be Mr. Wark's twenty-ninth year as chaplain. Additional appointments will be announced by the new exalted ruler at next week's meeting.

The auditing committee submitted its report for the last year. This committee consisted of Edward H. Higgins, T. A. O'Leary, Streeter G. Smith, Charles M. Tobin and R. E. Prettyman.

MINE HORSES SEE LIGHT FIRST TIME SINCE 1922

Shoes Stripped and Animals Turned into Green Pastures in Hocking Field

New Lexington, April 8.—Hundreds of horses and mules, employed to drag coal cars in the depths of Hocking field coal mines, today were enjoying the light of day and the advantage of green pasturage for the first time since 1922, as a result of the general suspension of mine operations. The mine draft animals, brought to the surface at the cessation of labor by the miners, were stripped of their shoes and turned into the fields to graze, pending settlement of the indefinite tie-up, which operators in the field estimate is costing operators and miners a total of well over a million dollars a month.

At the village of San Toy, Perry County, where the Sunday Creek Coal Co. has issued eviction orders to all miners occupying company houses, about 15 families have complied with the order and moved out. Those who do not move by April 15, however, in compliance with the company order, will not be forcibly evicted by Sheriff Harley McNabb, who declared last night that he will not aid in the eviction of miners from company houses in the county, "so long as the miners conduct themselves peacefully."

"It is not at all necessary, and if the miners pay their rent, I see no reason for evicting them," said the sheriff. "It is too cold to put families out of their homes, anyway."

THIRD PANEL REPORTS IN TRIAL OF HEWITT

Eleven Jurors Tentatively Seated and Include Three Women Members

Jefferson, April 8.—Prospects that the laborious task of selecting a jury to try Floyd Hewitt, 16-year-old alleged slayer of Mrs. Fred Brown, and her five-year-old son, Fred, Jr., would extend into the second week, were seen here early today, as a third panel of

50 veniremen reported for duty. The child, for which the state elected a second panel of 50 men and women, was exhausted last night, with 11 tentative jurors in the box, but with the defense still having 16 of its peremptory challenges left for use, while the state still had four challenges remaining. The state is seeking the death penalty for Hewitt, despite his youth.

Mrs. Brown and her son were brutally clubbed to death in their home near Conestoga several weeks ago, the slayer using a baseball bat and a poker. Hewitt confessed the double killing soon after his arrest, but later repudiated his confession, and now involves a matter of life or death for him.

The 11 tentative jurors seated early today included three women. Hewitt, more than six feet tall, and a adult in appearance, continued to sit impassively in the courtroom, appearing not to realize that the trial involves a matter of life or death for him.

**If Youth But Knew**  
BY JAMES J. WALKER  
Mayor of New York City

SUCCESS, as everybody knows, is composed of perfectly well-recognized qualities—you might even say stereotyped qualities, they HAVE to be stereotyped. Industry, integrity, character, perseverance, honesty, etc. But each individual must use an individual set of qualities and precepts, according to his business and personal traits. A public man has no stock on his shelves, can give out no samples, no catalogues. He has only himself to sell to the people.

Therefore I should say the first quality he must possess is love for people, for his fellows. No public man who does not enjoy all sorts of personal contacts can get far. Human needs must appeal to him, human emotions, human failings, human problems generally.

**Must Be Tolerant**  
The successful public man must have tolerance—lots of it. He must be willing and eager to see the other chap's side of a question and consider it. After all, the most important things in any community are PEOPLE, not handsome public buildings, not the design of traffic-laws or subway entrances. PEOPLE. The most successful public servant is the man or woman who can find out what the people want—and give it to them.

A successful executive must not take himself too importantly. He must keep in mind that he is a hired man; a temporary hired man at that! He must keep in mind the OTHER PEOPLE'S needs and not his own ambitions.

Any man who hopes for success must start out with confidence in himself—and sell it to others. He must believe he can do things, and make the rest believe it too.

If I were writing "rules for success," (and heaven preserve me from trying!) I would say "Be yourself!" "Do things in your own way; don't try to do them in some other man's way."

**Enthusiasm Factor**  
For example, I cannot write a speech. I have to catch fire from the people I'm talking to and get right at them personally and spontaneously. If I tried any other way, I'd be a failure before I began. Perhaps this is "temperament"—in my case Celtic temperament. Anyhow I've got to work that way.

Enthusiasm is a big factor in any man's success. Enthusiasm makes personality—a highly important thing. But here we get back again to the first principle: Love for people. If you have that, you have enthusiasm.

Another vital precept for success: Don't fear criticism. You may go to work in the morning knowing there are a lot of headaches on your desk. Go at the head-breaking tasks with good will and earnestness; consult the best people to help you solve the "knotty problems"; consider well their advice; see if it "clicks" with your own opinion; make up your mind what action to take and TAKE IT. Stick to it; put it through; and to hell with fear of criticism! If you stop to wonder what the newspapers will write about you, or what your neighbor will say, or how somebody will complain because your haven't pleased him instead of your public, you are lost. Be decisive. I guess that's all I know so far about success!

Wait till a man has asked you three times before you accept his invitation to visit him.

## MINE HORSES SEE LIGHT FIRST TIME SINCE 1922

Shoes Stripped and Animals Turned into Green Pastures in Hocking Field

New Lexington, April 8—Hundreds of horses and mules, employed to drag coal cars in the depths of Hocking field coal mines, today were enjoying the light of day and the advantage of green pastures for the first time since 1922, as a result of the general suspension of mine operations. The mine draft animals, brought to the surface at the cessation of labor by the miners, were stripped of their shoes and turned into the fields to graze, pending settlement of the indefinite tie-up, which operators in the field estimate is costing operators and miners a total of well over a million dollars a month.

At the village of San Toy, Perry County, where the Sunday Creek Coal Co. has issued eviction orders to all miners occupying company houses, about 15 families have complied with the order and moved out. Those who do not move by April 15, however, in compliance with the company order, will not be forcibly evicted by Sheriff Harley McNally, who declared last night that he will not aid in the eviction of miners from company houses in the county, "so long as the miners conduct themselves peacefully."

"It is not at all necessary, and if the miners pay their rent, I see no reason for evicting them," said the sheriff. "It is too cold to put families out of their houses, anyway."

## THIRD PANEL REPORTS IN TRIAL OF HEWITT

Eleven Jurors Tentatively Seated and Include Three Women Members

Jefferson, April 8—Prospect that the laborious task of selecting a jury to try Floyd Hewitt, 18-year-old alleged slayer of Mrs. Fred Brown, and her three-year-old son, Fred, Jr., would extend into the second week, were seen here early today, as a third panel of

50 veniremen reported for duty. The child, for which the state elected a second panel of 50 men and women, was exhausted last night, with 11 tentative jurors in the box, but with the defense still having 16 of its peremptory challenges left for use, while the state still had four challenges remaining. The 11 tentative jurors seated early today included three women. Hewitt, more than six feet tall, and slayer using a baseball bat and a dagger, confessed the double murder, repudiated his confession, and pleaded a plea of not guilty to the slaying of him.

## If Youth But Knew

BY JAMES J. WALKER

Mayor of New York City

SUCCESS, as everybody knows, is composed of perfectly well-recognized qualities—you might even say stereotyped qualities. They HAVE to be stereotyped: Industry, integrity, character, perseverance, honesty, etc.

But each individual must use an individual set of qualities and precepts, according to his business and personal traits. A public man has no stock on his shelves, can give out no samples, no catalogues. He has only himself to sell to the people.

Therefore I should say the first quality he must possess is love for people, for his fellows. No public man who does not enjoy all sorts of personal contacts can get far. Human needs must appeal to him; human emotions, human failings, human problems generally.

Must Be Tolerant. The successful public man must have tolerance— heaps of it. He must be willing and eager to see the other chap's side of a question, and consider it. After all, the most important things in any community are PEOPLES, not handsome public buildings, nor the design of traffic-laws or subway entrances. PEOPLE. The most successful public servant is the man or woman who can find out what the people want—and give it to them.

A successful executive must not take himself too importantly. He must keep in mind that he is a hired man; a temporary hired man at that! He must keep in mind the OTHER FELLOWS' needs and not his own ambitions. Any man who hopes for success must

start out with confidence in himself—and sell it to others. He must believe he can do things, and make the rest believe it too.

If I were writing "rules for success," (and heaven preserve me from trying!) I would say "Be yourself." "Do things in your own way; don't try to do them in some other man's way."

Enthusiasm Factor. For example, I cannot write a speech. I have to catch fire from the people I'm talking to and get right at them personally and spontaneously. If I tried any other way, I'd be a failure before I began. Perhaps this is "temperament"—in my case Celtic temperament. Anyhow I've got to work that way!

Enthusiasm is a big factor in any man's success. Enthusiasm makes personality—a highly important thing. But here we get back again to the first principle: Love for people. If you have that, you have enthusiasm.

Another vital precept for success: Don't fear criticism. You may go to work in the morning knowing there are a lot of benches on you desk. Go at the head-breaking tasks with good will and earnestness; consult the best people to help you solve the knotty problems; consider well their advice; see if it "clicks" with your own opinion; make up your mind what action to take and TAKE IT. Stick to it; put it through; and to hell with fear of criticism! If you stop to wonder what the newspapers will write about you, or what your neighbor will say, or how somebody will complain because your haven't pleased him instead of your

public, you are lost. Be decisive. I guess that's all I know so far about success!

## 47 CASES ARE LISTED ON TRAFFIC COURT DOCKET

One Defendant Charged with Failure To Observe Street Signal

Police tagged 46 automobiles for traffic code offenses here during the last week and ordered an autoist to appear for driving his car across an up-town intersection while the stop light was showing, the docket showed when the regular Friday morning traffic court session opened today.

C. R. Danner, the driver accused of failing to observe the stop signal, was scheduled for a hearing today. Chester Mussellmann of Forest, was ordered to appear on the charge of driving a car with only one license plate attached.

Aside from these two cases, all were for parking violations. Twenty-eight of the 47 had put in their appearance when Judge Martin opened traffic court this morning and the others were expected during the day. Practically all were first offense cases in which no penalties were assessed.

## MRS. JAMES GALLANT IS CLAIMED BY DEATH

Succumbs After Year's Illness; Funeral Service Monday Afternoon

Radnor, April 8—Mrs. James Gallant, 57, died at her home near Radnor last night following a year's illness of cancer.

Funeral services will be held from the Radnor Baptist Church Monday afternoon at 2:30 o'clock with Rev. Edwin Reed and Rev. C. F. Snyder, son-in-law, in charge. Burial will be made in Radnor Cemetery.

Mrs. Gallant was the daughter of Rev. and Mrs. J. S. Snodgrass. Both are deceased. Rev. Snodgrass was at one time pastor of the Radnor Church. Surviving are the husband, James; one step-daughter, Mrs. Grace Hughes, Columbus, and one step-grandson.

## 19 MEMBERS OF GUARD DETACHMENT LEAVE CITY

Group To Start Target Practice at Harrisburg Range Monday

Nineteen members of the Harding Guard Detachment of the Tenth Infantry left Marion today for Fort Hayes, Columbus, to start target practice Monday at the range at Harrisburg, near Columbus. Lieut. Walter L. Sheeley announced this morning. The members of the detachment to go are some who have served here longest.

The men will stay on the range until May 15, when they will return for duty here. A replacement of 10 men arrived from Fort Hayes this afternoon to fill out the guard detachment until the regular members return.

An ocean makes pretty music, but it can't overcome its looks.

## Entire New Testament to be Read One Day at Central Christian Church

The complete New Testament of the Bible will be read in one day at Central Christian Church, beginning at 9 a. m. Tuesday, it was announced today by Rev. S. L. Sellers of Indianapolis, Ind., who is conducting revival services there. The Testament will be read in half-hour relays and will probably consume the greater part of 24 hours of steady reading. More than 15,000 Bible verses were expected to be read at the service last night. The evangelist is conducting a campaign for more scripture reading.

Delegations from the Christian Church headed by the pastor, Rev. Mr. Brown and from the Kirkpatrick Church, headed by Rev. Mr. Perry, pastor, were in attendance at last night's service.

"God's Blockades" was the subject of Reverend Sellers' address in which he impressed his hearers with the thought that "God has done everything to prevent people from being lost in sin and all the powers thereof. He has

given us the choruses, the Bible, Eternity" sung by Henry W. C. Heavily music, the ministry, Christian friends and many other holy influences. There is hope for man as long as he has regard and concern for these things of God.

"My Experience with a Leper" will be the subject of Reverend Sellers' sermon for the service tonight. There will be special music by the two choruses and a solo, "Where Will You Spend
